Contents

This document provides specific information for the release of DT2e v2.4.2.

Overview of DT2e v2.4.2 Updates

The purpose of this release is to improve DT2e performance, enforce submission policy, and improve the clarity of industry submission notification.   Some changes are technical changes that will be transparent to DT2e end users.

Please contact the DTRADE Help Desk at 202-663-2838 or via email at dtradehelpdesk@state.gov for questions about this DT2e v2.4.2 release.

Update to DT2e   v2.4.2

Functional Changes

New

Case Statuses

Users can continue to use the "Track Status" option to track the status of their cases. Status history can be obtained for up to 3 months by requesting a specific date range. Users will no longer be able to use the "DTCDownloadServlet" to obtain a history of case statuses. This link has been removed.

Case Submission

DT2 now automatically enforces the prohibition against submitting files greater than 35 MB in size. If files that exceed the limit are attempted to be submitted, users will receive a message advising them that their case has been rejected because it exceeds the allowable size.

Once a case has been submitted, users will receive an updated receipt message confirming that their case has been submitted and reminding them to use the DTRADE "Track Status" option 24 hours after submission to make sure that the case was validated and properly received internally by DDTC.

Fixed

Performance Issues

This release fixes several DTRADE software technical issues that were affecting DTRADE performance. These fixes will be transparent to users, with the exception that performance and system uptime should be improved.

Support

Please report any undocumented issues using the appropriate agency guidelines for technical support or change management. For information regarding this latest software version, recent release note revisions, or additional assistance, please contact:
