U. S. DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE  
Public Health Service                      National Institutes of Health

Revised January 1977

## PREFACE

The information set forth in this publication is compiled and amended annually by the Financial Management Staff of the National Cancer Institute and is intended primarily for use by members of the Institute staff, the principal advisory groups to the Institute and others involved in the administration and management of the National Cancer Program. Questions regarding any of the information contained herein may be directed to the Financial Manager, National Cancer Institute, 9000 Rockville Pike, Bethesda, Maryland 20014.

FACT BOOK COORDINATOR  
Frank B. Showers

### NOTICE

Fiscal Year 1976 information in this publication covers the period July 1, 1975 through June 30, 1976. Page 31 reflects obligation of funds during the Transition Quarter (July 1, 1976 through September 30, 1976).

# NATIONAL CANCER INSTITUTE HISTORICAL DATA

## LEGISLATIVE HIGHLIGHTS

- March 7, 1928** — Senator M.M. Neely introduced S. 3554, "To authorize the National Academy of Sciences to investigate the means and methods for affording Federal aid in discovering a cure for cancer and for other purposes."
- April 12, 1937**—Congressman Warren G. Magnuson of Washington introduced H.R. 6100, an identical bill to S. 2067.
- July 8, 1937** — A joint hearing of the Senate and House committees was conducted before a Subcommittee on Cancer Research, and a revised bill was written.
- July 23, 1937** — The National Cancer Institute Act was passed by Congress.
- August 5, 1937**—The National Cancer Institute Act, Public Law 244, 75th Congress, was signed by President Franklin D. Roosevelt, "To provide for, foster, and aid in coordinating research relating to cancer; to establish the National Cancer Institute; and for other purposes." An appropriation of \$700,000 for each fiscal year was authorized.
- July 1, 1944** — The Public Health Service Act, Public Law 410, 78th Congress provided that "The National Cancer Institute shall be a division in the National Institutes of Health." The act also revised and consolidated many revisions into a single law. The limit of \$700,000 annual appropriation was removed.
- December 4, 1970** — Senator Ralph Yarborough, Texas, introduced S. 4564, "A bill which would establish a National Cancer Authority for the purpose of devising and implementing a national program for the conquest of the world's most dreaded disease — cancer."
- January 22, 1971** — In his State of the Union Message, President Nixon announced that he would ask for the appropriation of an additional \$100 million to launch an intensive effort to control cancer, and that he would ask later for whatever additional funds could be effectively used.
- March through November 1971** — Hearings on proposed legislation relating to cancer research expansion were held by both House and Senate subcommittees.
- October 18, 1971** — The President announced that the Army's Biological Defense Research Center at Fort Detrick, Maryland would be converted into a leading center for cancer research as part of the major campaign to conquer cancer.
- December 7, 1971** — After three conference sessions that began on November 30, the Senate-House Conference Committee agreed on S. 1828.
- December 9, 1971** — The House passed the bill by voice vote.
- December 10, 1971** — The Senate passed the bill 85-0 and sent it to the President for signature.
- December 23, 1971** — The President signed P. L. 92-218, The National Cancer Act of 1971, providing increased authorities and responsibilities for the NCI Director; initiating a National Cancer Program; establishing a three-member President's Cancer Panel and a 23-member National Cancer Advisory Board; establishing cancer control programs as necessary for cooperation with State and other health agencies; and providing for the collection, analysis, and dissemination of all data useful in the diagnosis, prevention, and treatment of cancer, including the establishment of an international cancer research data bank.
- January-February 1974** — Hearings were held on the proposed legislation to improve on the National Cancer Plan and to authorize appropriations for the next three years.
- July 23, 1974** — The National Cancer Act Amendments of 1974, P.L. 93-352, was signed. The Amendments: encourage the NCP to explore the role of nutrition in the treatment, rehabilitation, and causation of cancer; authorize the Director to include personnel needs in the budget estimate to OMB; remove the limit on the number of comprehensive cancer centers; increase the number of consultant/expert appointments to 100; and direct the NCI to provide and contract for a program to disseminate and interpret information respecting the cause, prevention, diagnosis and treatment of cancer.

## HISTORICAL EVENTS

**August 5, 1937** — President Franklin D. Roosevelt signed the National Cancer Act.

**November 9, 1937** — The National Advisory Cancer Council held its first meeting.

**January 13, 1938** — Dr. Carl Voegtlin was appointed the first Director of the Institute.

**October 31, 1940** — President Franklin D. Roosevelt dedicated Building 6.

**July 1, 1947** — NCI reorganized to provide for expanded program; intramural cancer research, cancer research grants, and cancer control activities.

**July 2, 1953** — NCI inaugurated a full-scale clinical research program in the new Clinical Center.

**April 1955** — The Cancer Chemotherapy National Service Center was established in the Institute to coordinate the first national, voluntary, cooperative cancer chemotherapy program.

**January 11, 1966** — NCI reorganized to coordinate related activities. The areas of three Scientific Directors were established: Etiology; Chemotherapy; and a group of discipline-oriented laboratories and branches referred to as General Laboratories and Clinics.

**February 13, 1967** — A Cancer Research Center was established in Baltimore USPHS Hospital to conduct an integrated program of laboratory and clinical research on the therapy and management of cancer patients.

**April 27, 1970** — At the request of Senator Ralph W. Yarborough, Chairman of the Committee on Labor and Public Welfare, the Senate approved the establishment of the National Panel of Consultants on the Conquest of Cancer.

**November 25, 1970** — The National Panel of Consultants submitted to the Senate Committee a report entitled "National Program for the Conquest of Cancer."

**October 18, 1971** — President Nixon converted the Army's former biological warfare facilities at Fort Detrick, Md., to research on the causes, treatment and prevention of cancer.

**December 23, 1971** — President Nixon signed P.L. 92-218, The National Cancer Act of 1971.

**June 22, 1972** — The Institute awarded a contract for the operation and maintenance of the Frederick Cancer Research Center at Fort Detrick, Maryland. This constituted the largest research contract ever awarded by a research component of the National Institutes of Health.

**June 30, 1972** — A team of five U.S. cancer scientists met with Russian scientists in Moscow to exchange information on cancer drugs. Dr. C. Gordon Zubrod, Scientific Director for Chemotherapy, NCI, on behalf of the United States, signed a U.S.-U.S.S.R. agreement for continued cooperation on the exchange of drugs, visiting scientists, and information.

**July 27, 1972** — A Bureau-level organization was established for the National Cancer Institute, giving the Institute and its components organizational status commensurate with the responsibilities bestowed on it by The National Cancer Act of 1971. Under the reorganization, the Institute was composed of the Office of the Director and four Divisions: the Division of Cancer Biology and Diagnosis; Division of Cancer Cause and Prevention; Division of Cancer Treatment; and Division of Cancer Grants.

**February 27, 1974** — The Division of Cancer Treatment completed negotiations with the University of Maryland to relocate the Baltimore Cancer Research Center within the University of Maryland Hospital Complex in Baltimore.

**September 10, 1974** — NCI established the Division of Cancer Control and Rehabilitation, which will plan, direct and coordinate an integrated program of activities regarding the widespread application of available and new methods for reducing the incidence, morbidity and mortality from cancer.

**July 1975**—The Division of Cancer Treatment was expanded to include the NCI Surgery and Radiation Oncology Branches and the extramural program of Cancer Cooperative Clinical Trials. The reorganization strengthened the Division's capabilities for conducting a national program of research on cancer treatment by combined modalities.

**ACTING DIRECTOR  
NATIONAL CANCER PROGRAM  
NATIONAL CANCER INSTITUTE**

**NOVEMBER 1, 1976 TO PRESENT**

**Guy Rene Newell, M.D.**

Dr. Guy R. Newell, was born in Bogalusa, Louisiana, September 21, 1937. Dr. Newell received both his B.S. (1959) and M.D. (1962) degrees from Tulane University and his M.S. in Hygiene from the Harvard School of Public Health in 1968. From July 1963 to June 1965, he served as a Research Planning Associate in the Office of the Director, NCI. Between July

1965 and June 1968, he received training in internal medicine and oncology at the Johns Hopkins Hospital and the Peter Bent Brigham Hospital. He returned to the NCI in July 1968, where he was an Assistant for Program, Viral Oncology and served as Executive Secretary, Biometry & Epidemiology Contract Review Committee until June 1970. From July 1970 until his appointment as Deputy Director, NCI in August 1973, Dr. Newell held positions of Assistant and then Associate Professor of Epidemiology at Tulane University.

# NATIONAL CANCER INSTITUTE

**OFFICE OF THE DIRECTOR**  
**Dr. Guy R. Newell, Acting Director**  
**Assistant Directors: Dr. Bayard H. Morrison III and Dr. Richard A. Tjalma**

---

Plans, develops, directs, and coordinates the activities and programs of the Institute and of the National Cancer Program; and provides overall administrative guidance and services.

**FREDERICK CANCER RESEARCH CENTER**  
**Dr. William W. Payne**

**OFFICE OF RESEARCH SAFETY**  
**Dr. William E. Barkley**

**OFFICE OF PROGRAM PLANNING AND ANALYSIS**  
**Mr. Louis M. Carrese**

Manages development of the National Cancer Program Plan, the annual 5-year plan, individual program plans, and the evaluation plan; analyzes programs of the Institute; evaluates resource needs for the National Cancer Program; develops and provides support for management and scientific information systems.

**OFFICE OF CANCER COMMUNICATIONS**  
**Mr. Paul Van Nevel**

Develops and manages the program communications activities of the NCI/NCP; interprets program and organizes, prepares and disseminates reports on cancer research for research institutions and other organizations participating in the NCP; maintains liaison with NCI constituents on behalf of the Director; responds to public inquiries; prepares and coordinates internal reports for dissemination within the Institute, the Executive Branch, and the Congress; and serves as a focal point for information on legislation.

**OFFICE OF INTERNATIONAL AFFAIRS**  
**Dr. Gregory T. O'Connor**

Plans, coordinates, and manages cooperative international cancer research activities and provides leadership within the National Cancer Institute for the development of international programs and activities.

**OFFICE OF ADMINISTRATIVE MANAGEMENT**  
**Mr. Calvin B. Baldwin, Jr.**  
**Executive Officer**

Directs, coordinates, and conducts administrative management activities of the Institute including: personnel, budget, contracts, and administrative services; advises Director on administrative management aspects of the program.

**PROGRAM ANALYSIS AND FORMULATION BRANCH**  
**Dr. Robert Love**

**SYSTEMS PLANNING BRANCH**  
**Mr. John E. McShulsakis**

**PROGRAM LIAISON BRANCH**  
**Mr. Robert G. Schonfeld**

**EDUCATION & TECHNICAL REPORTS BRANCH**  
**Mr. William S. Gray**

**ADMINISTRATIVE SERVICES BRANCH**  
**Mr. Thomas L. Kearns**

**FINANCIAL MANAGEMENT BRANCH**  
**Mr. Earle L. Browning**

**PERSONNEL MANAGEMENT BRANCH**  
**Mrs. Elizabeth Stroud**

**RESEARCH CONTRACTS BRANCH**  
**Mr. James E. Graalman**

**MANAGEMENT POLICY BRANCH**  
**Mr. Robert M. Namovicz**

**DIVISION OF CANCER CAUSE AND PREVENTION**  
**Dr. James A. Peters, Director**  
**Dr. Gio B. Gori, Deputy Director**

---

Plans and directs a program of laboratory, field and demographic research on the cause and natural history of cancer and means for preventing cancer through direct in-house research and through research contracts; evaluates mechanisms of cancer induction by viruses and by environmental carcinogenic hazards; serves as the focal point for the Federal Government on the synthesis of clinical, epidemiological, and experimental data relating to the cause of cancer; and participates in the evaluation of and advises the Institute Director on program-related aspects of cancer control activities and of grants and grant applications as they relate to cancer cause and prevention.

**ADMINISTRATIVE  
MANAGEMENT BRANCH**  
**Mr. John M. Miller**

**FIELD STUDIES AND STATISTICS PROGRAM**  
**Dr. Marvin A. Schneiderman**

---

Plans, conducts, and evaluates demographic research activities of the NCP and provides statistical services for all NCP research programs.

**BIOMETRY BRANCH**  
vacant

**CLINICAL  
EPIDEMIOLOGY BRANCH**  
**Dr. Robert W. Miller**

**ENVIRONMENTAL  
EPIDEMIOLOGY BRANCH**  
**Dr. Joseph F. Fraumeni, Jr.**

**CARCINOGENESIS PROGRAM**  
**Dr. Gio B. Gori, Acting**

---

Plans, implements, and administers coordinated program of basic and applied research on carcinogenesis by chemical and physical factors and on its prevention; conducts programs in the areas of (a) coordination on environmental carcinogenesis; and (b) epidemiologic pathology.

**BIOLOGY BRANCH**  
**Dr. Joseph A. DiPaolo**

**LUNG-CANCER  
BRANCH**  
**Dr. Michael B. Sporn**

**CHEMISTRY BRANCH**  
**Dr. Harry V. Gelboin**

**CARCINOGEN BIOASSAY  
AND PROGRAM  
RESOURCES BRANCH**  
**Dr. Cipriano Cueto**

**EXPERIMENTAL  
PATHOLOGY BRANCH**  
**Dr. Umberto Saffiotti**

**CARCINOGEN METABOLISM  
AND  
TOXICOLOGY BRANCH**  
**Dr. Elizabeth K. Weisburger**

**VIRAL ONCOLOGY PROGRAM**  
**Dr. John B. Moloney**

---

Plans and conducts the Institute's program of research and development dealing with viruses as etiological agents of cancer; supports programmatic investigations aimed at the detection, propagation, characterization, prevention, and control of tumor viruses and/or their induced diseases.

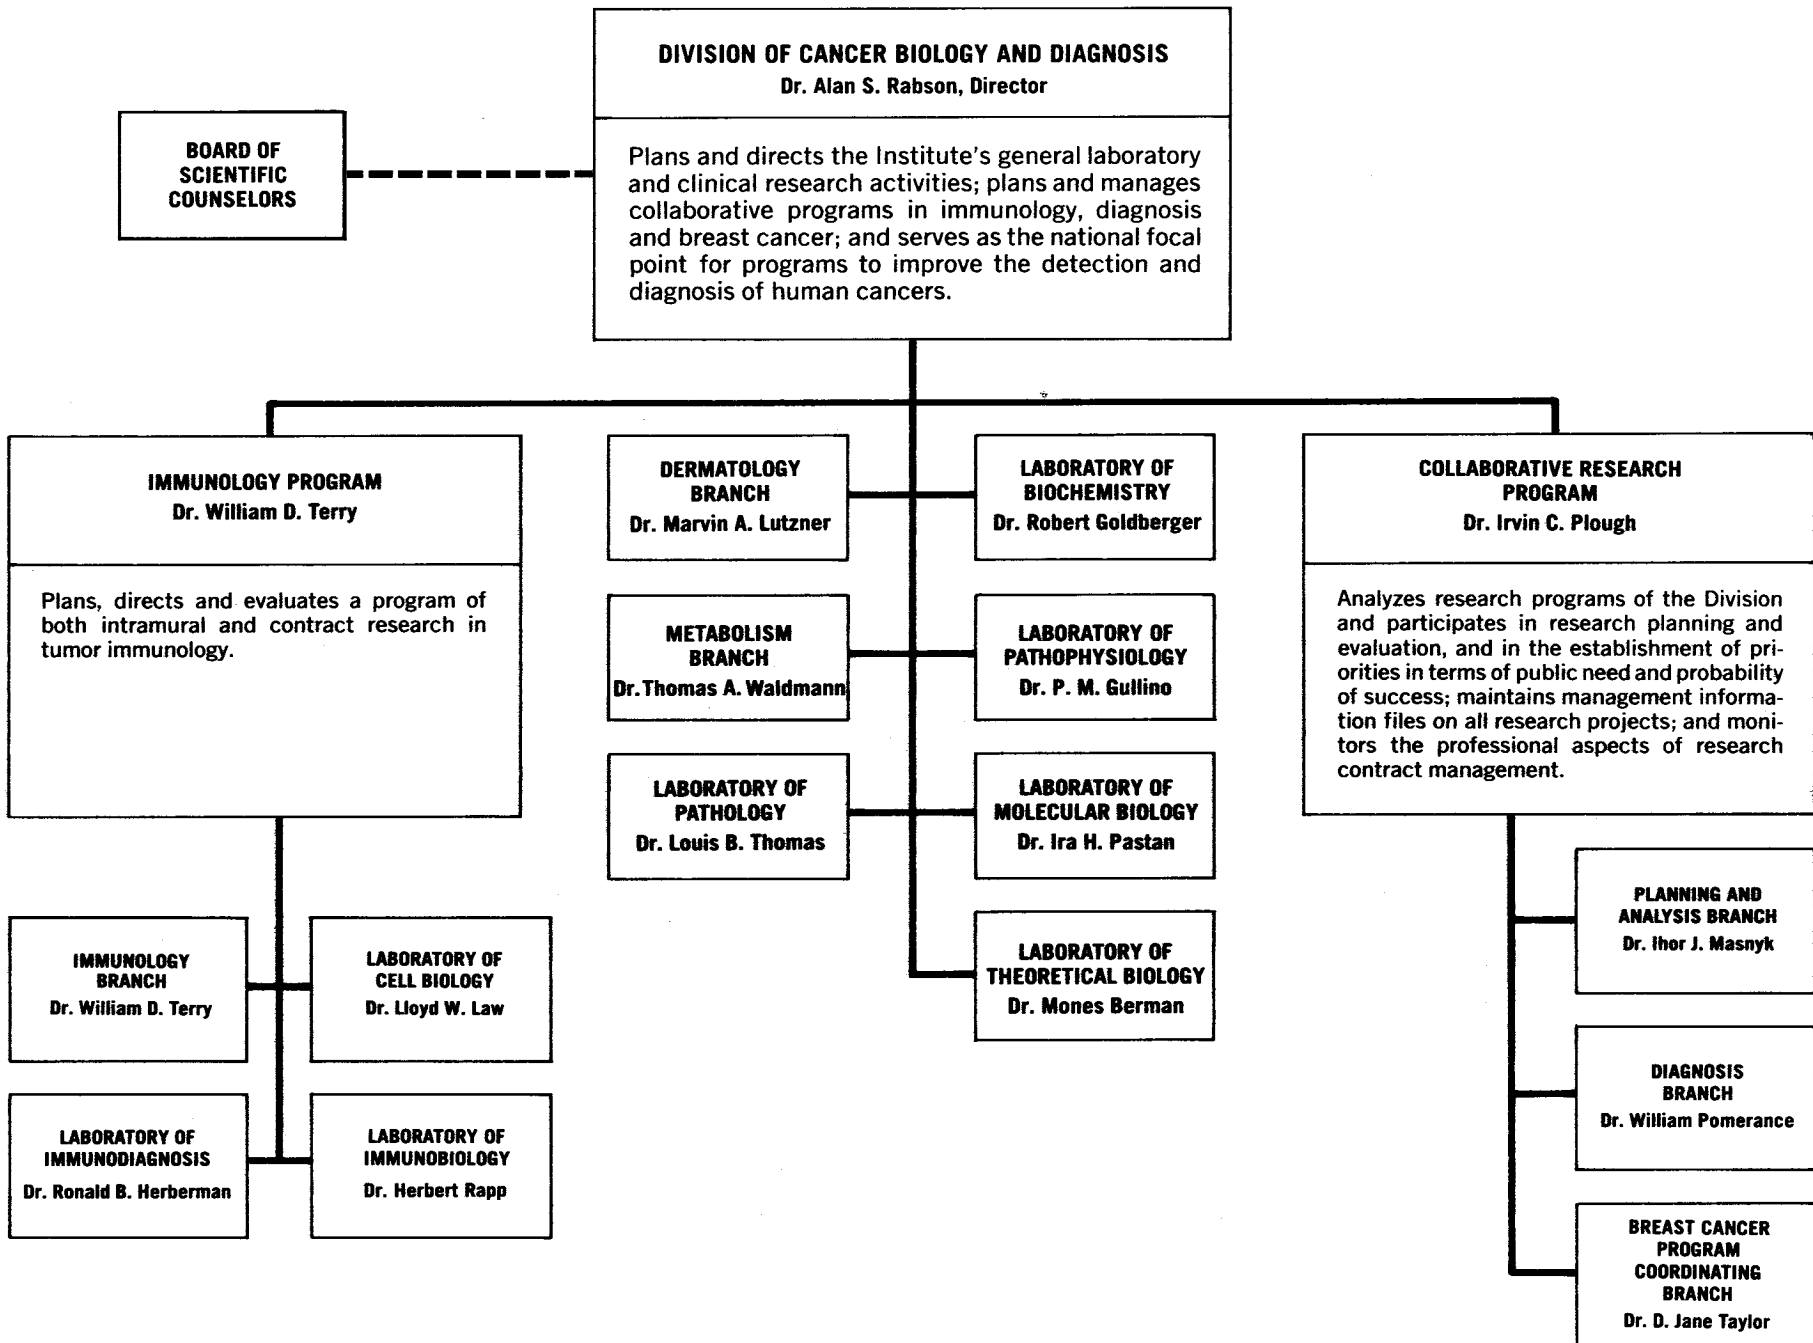

**LABORATORY OF TUMOR  
VIRUS GENETICS**  
**Dr. Edward M. Scolnick**

**LABORATORY OF RNA  
TUMOR VIRUSES**  
**Dr. Robert J. Huebner**

**COLLABORATIVE  
RESEARCH BRANCH**  
**Dr. Robert A. Manaker**

**LABORATORY OF DNA  
TUMOR VIRUSES**  
**Dr. Robert A. Manaker**

**LABORATORY OF VIRAL  
CARCINOGENESIS**  
**Dr. George J. Todaro**

**DIVISION OF CANCER RESEARCH RESOURCES AND CENTERS**

**Dr. Thomas J. King, Director**  
**Dr. William A. Walter, Deputy Director**

Plans and directs the Institute's grant-supported activities; recommends Institute policies relating to the administration of grant programs; develops, reviews and coordinates plans and criteria for the implementation of NCI grants and evaluates effectiveness of grant-supported activities in achieving the Institute's missions; and advises the Institute Director, the National Cancer Advisory Board, and other advisory bodies of grant activities and developments.

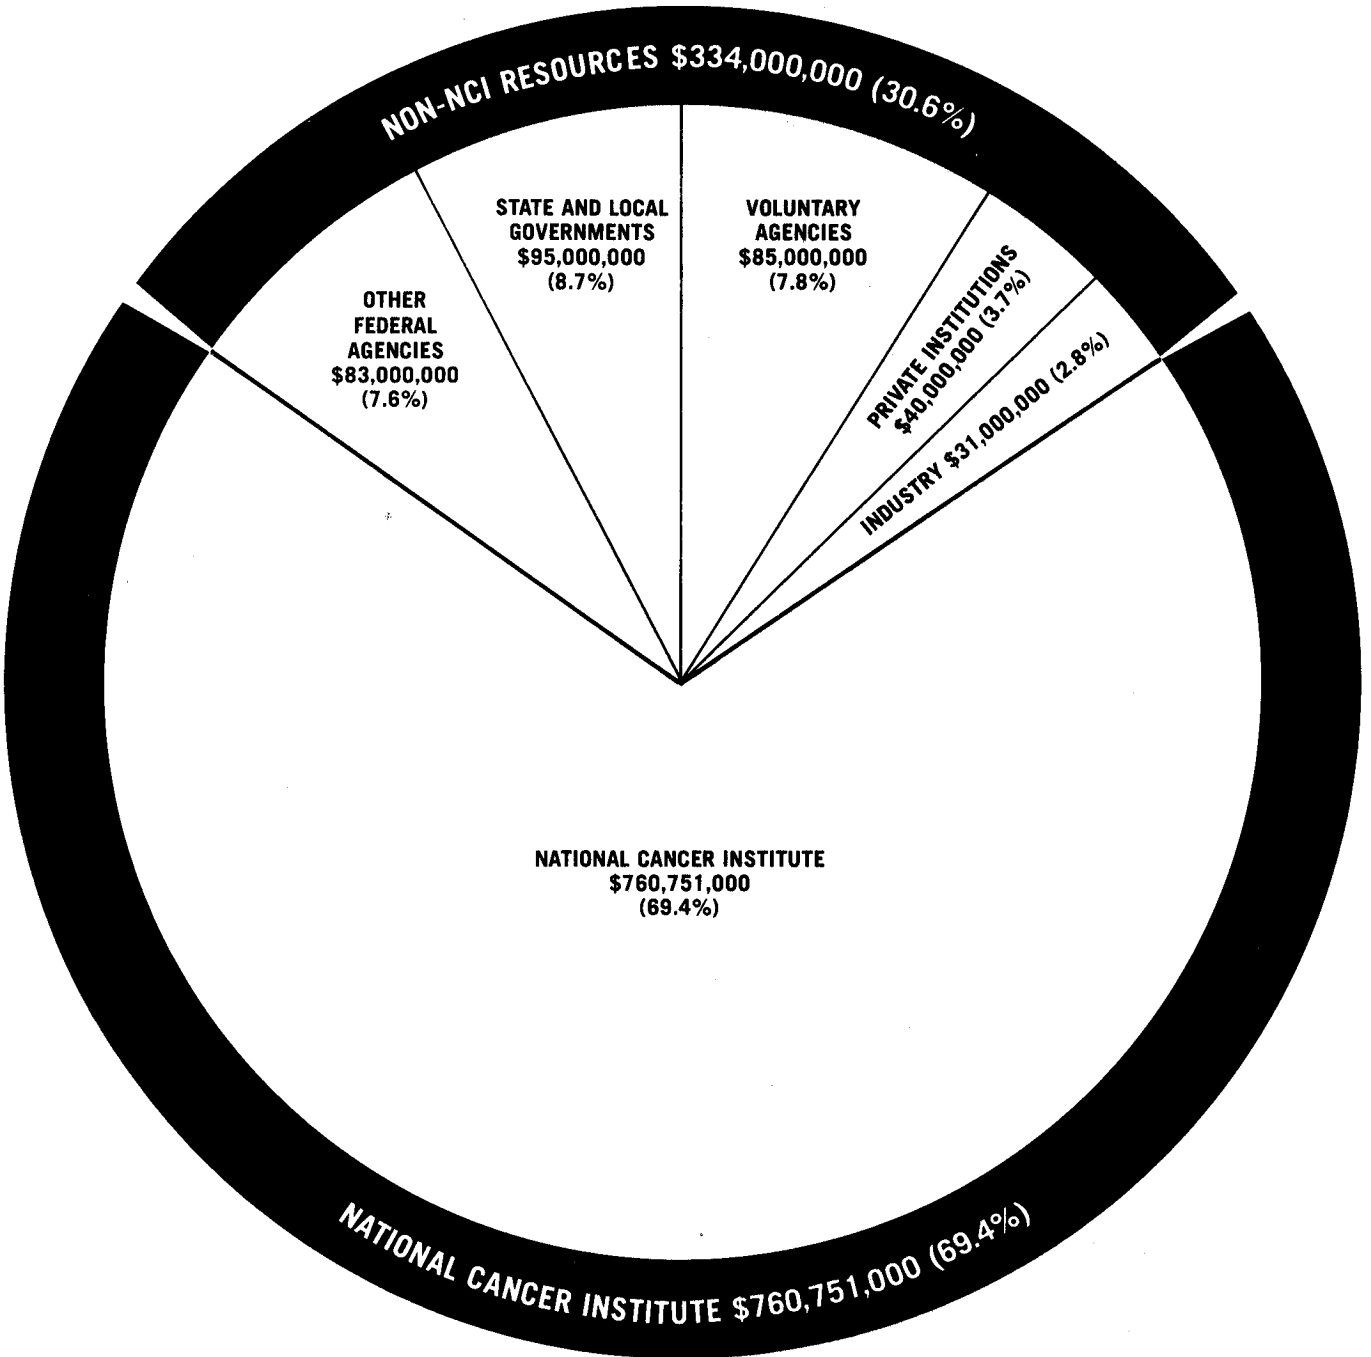

**TOTAL RESOURCES FOR THE NATIONAL  
CANCER PROGRAM — FISCAL YEAR 1976**

**TOTAL: \$1,094,751,000**

The NCI portion represents actual 1976 obligations. Non-NCI portions are estimated.

# NATIONAL CANCER PROGRAM STRATEGY

The National Cancer Program came into being as a result of the National Cancer Act of 1971 to conduct a nationally coordinated effort to achieve the conquest of cancer. The goal of the National Cancer Program (NCP) is to develop the means to significantly reduce the incidence of cancer in man and morbidity and mortality due to cancer, and ultimately to develop the means for eliminating all human cancers. Since achievement of this goal is a long term effort, the strategy of the program is to provide for a balanced program covering the entire spectrum of research, from basic through applied and developmental, by the implementation of laboratory, field, and clinical programs that are judged most likely to produce the information and needed technology that can be transferred to medical practice in preventing and treating cancer.

The NCP Strategic Plan which was released in 1973, was the first major output of the continuous planning process being carried out within the NCP. Research together with Cancer Control are the major scientific components of the program strategy. The associated scientific activities deemed necessary to achieve the research and cancer control objectives cover the full range of activities from determining the cause of cancer to rehabilitation and continuing care of patients.

To facilitate and provide continuity to the planning process, and to facilitate the analysis of large volumes of planning information, a hierarchical format is used to organize the content of the National Cancer Plan:

- National Cancer Program Goal
- Research Thrusts and Control interventions
- Research and Control objectives
- Research and Control approaches
- Research and Control approach elements
- Research and Control project areas

The first three levels are displayed on the facing figure.

The next three levels provide increasingly more detailed definition of the scientific content and activities encompassed within the program strategy.

Jan. 1976

## MORTALITY FOR THE FIVE LEADING CANCER SITES BY AGE GROUP AND SEX—1974

TOTAL		UNDER 15		15-34		35-54		55-74		75+

All Other & Unspecified Sites .....	27,100	13,600	13,500	31,400	15,600	15,800

NOTE: The estimates of new cancer cases are offered as a rough guide and should not be regarded as definitive. Especially note that year-to-year changes may only represent improvements in the basic data.

<sup>1</sup> Carcinoma-in-situ of the uterine cervix and non-melanoma skin cancer not included in totals.

<sup>2</sup> Melanoma only. <sup>3</sup> Invasive cancer only. <sup>4</sup> Melanoma 3700, other skin 1600.

Incidence estimates are based on rates from NCI Third National Cancer Survey, 1969-71.

# RESEARCH POSITIONS AT THE NATIONAL CANCER INSTITUTE<sup>1</sup>

The National Cancer Institute recognizes that one of the most valuable resources to be drawn upon in the fight against cancer is the wealth of scientific talent available in the U.S. and around the world. In an effort to attract and maintain the highest quality scientific staff, two personnel systems are used: the U.S. Civil Service System and the PHS Commissioned Corps. In addition, the Staff Fellowship Program and the NIH Visiting Program have been designed to meet special needs. Special programs are also available for those who qualify.

POSITION	ELIGIBILITY	ANNUAL SALARY	MECHANISM OF ENTRY
----------	-------------	---------------	--------------------

## I. CIVIL SERVICE

A. Civil Service (tenured)	Appropriate advanced education, experience and knowledge needed by NCI to conduct its programs	Minimum starting: Ph.D.—\$24,308 Physicians—\$31,598 Maximum: \$39,600	Civil Service Commission. Contact Director or Laboratory Chief in area of interest or the NCI Personnel Office.
----------------------------	--	---	---

## II. SPECIAL APPOINTMENT OF EXPERTS AND CONSULTANTS

A. Special Appointment of Experts and Consultants (non-tenured appointment which can be extended up to 4 years)	Applicants shall possess outstanding experience and ability such as to justify recognition as authorities in their particular fields of activity.	Equivalent to the salary range of GS-13 through GS-18 Maximum: \$39,600	Recommendation by Division Directors. Final approval rests with the Director, NCI.
---	---	--	--

## III. USPHS COMMISSIONED CORPS

Associate Training Program including CORD residency deferment program (limited tenure, maximum 3 years) <sup>2</sup>			
A. Clinical Associate	Graduates of Medical Schools including Internship	Pay and allowances of Senior Assistant Surgeon or Surgeon of PHS Commissioned Corps	Apply to Clinical and Professional Education Section, Clinical Center, National Institutes of Health
B. Research Associate	Graduates of Medical Schools including Internship	Pay and allowances of Senior Assistant Surgeon or Surgeon of PHS Commissioned Corps	Apply to Clinical and Professional Education Section, Clinical Center, National Institutes of Health
C. Staff Associate	Graduates of medical and dental schools, or other doctoral qualifications	Pay and allowances of Senior Assistant Surgeon of PHS Commissioned Corps	Apply to Clinical and Professional Education Section, Clinical Center, National Institutes of Health
D. Senior COSTEP Program (Medical)	Senior Medical Students	Pay and Allowances of Junior Asst. Health Service Officer plus payment of tuition, fees and other necessary expenses. Candidates incur 2 year active duty obligation with PHS Commissioned Corps.	Apply to: Commissioned Personnel Operations Division, Parklawn Building, Room 4-35, 5600 Fishers Lane, Rockville, Maryland 20857

**IV. VISITING PROGRAM (limited tenure)<sup>3</sup>**

POSITION	ELIGIBILITY	ANNUAL SALARY	MECHANISM OF ENTRY
<b>A. Visiting Fellow</b> (maximum 3 years)	1-3 years postdoctoral education	Entrance stipend \$10,000-10,800  No dependency allowance provided	Contact Director or Laboratory Chief in area of interest.
<b>B. Visiting Associates</b> (1 year with renewals to end of project)	3+ years postdoctoral education with appropriate knowledge needed by NCI	\$13,482-21,133	Contact Director or Laboratory Chief in area of interest.
<b>C. Visiting Scientist</b> (duration of project)	6+ years postdoctoral education with appropriate unusual experience and knowledge needed	\$19,386-39,600	Contact Director or Laboratory Chief in area of interest.

**V. STAFF FELLOWSHIPS**

<b>A. Staff Fellowships</b> (maximum 5 years)	Physician or other doctoral degree equivalent awarded within last 5 years, U.S. citizen or non-citizen eligible for naturalization within 4 years.	Staff Fellows Physicians \$19,740-24,986 Other Doctorates \$15,120-23,335 Senior Staff Fellows Physicians \$22,365-32,801 Other Doctorates \$19,740-26,527	Contact Director or Laboratory Chief in area of interest or the NCI Person- nel Office.
--	--	---	---

**VI. SPECIAL PROGRAMS**

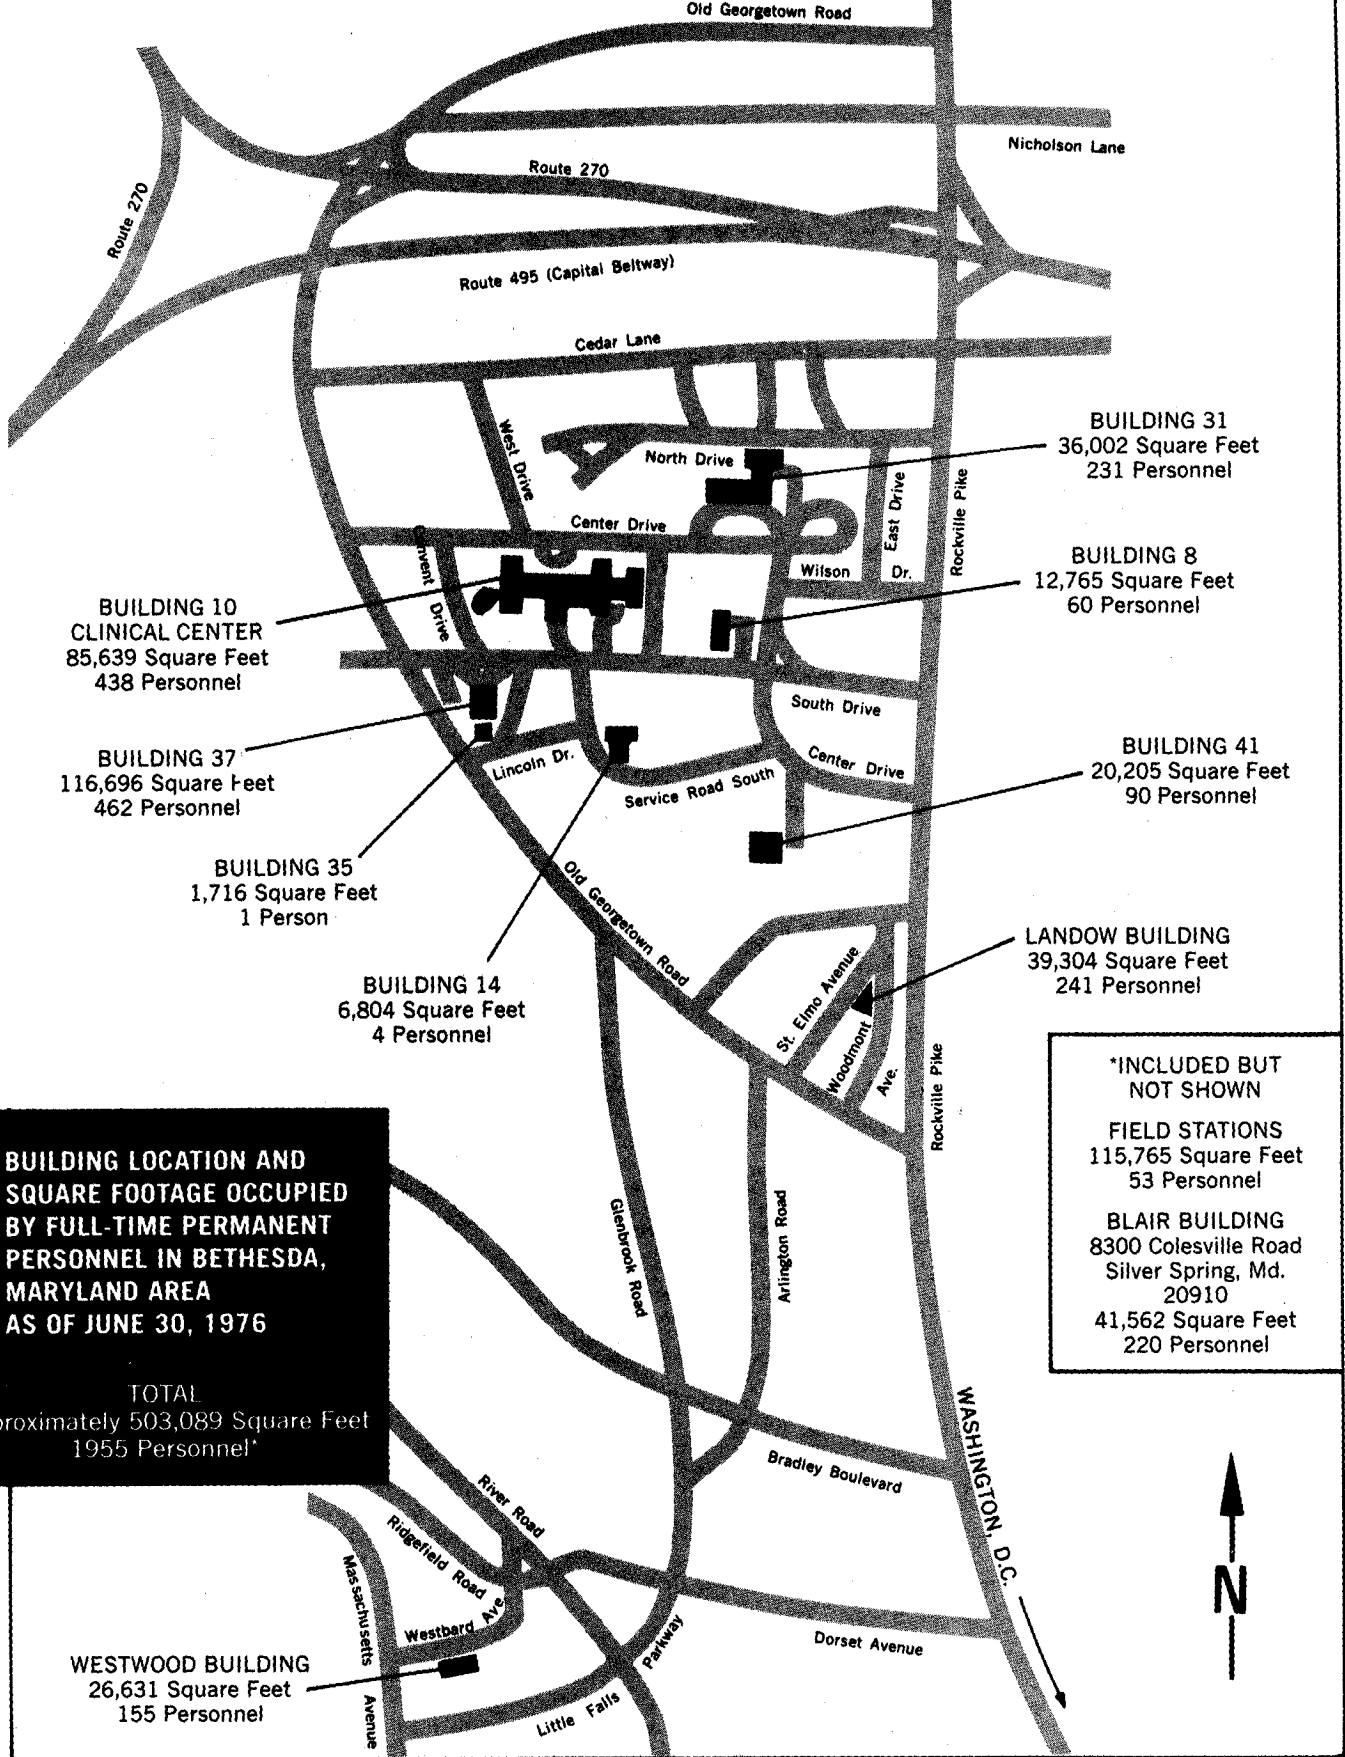

<b>A. Research Fellow</b> spon- sored by organization other than NIH, PHS	Determined by sponsoring organization.	Established by spon- soring organization	Contact Director or Laboratory Chief in area of interest; also apply to sponsoring agency, e.g. American Cancer Society, Eleanor Roosevelt Cancer Foundation, Leukemia Society of America, Inc., etc.
<b>B. COSTEP Program</b> (operates year-round) Maximum 120 days per 12 month period	U.S. citizen with 2 years of bac- calaureate program or more in health-related field. May be enrolled in doctoral program or professional school. Physical requirements of PHS Commissioned Corps. Plans to return to college.	Pay and allowance of a Commissioned Officer, Junior Asst. Grade	Apply to PHS Commissioned Corps, COSTEP SECTION, Parklawn Building, 5600 Fishers Lane, Rock- ville, Maryland 20852.
<b>C. Civil Service Summer Employment Program</b>	U.S. citizen, 18 years of age or older (16 if high school graduate)	Pay equivalent to GS-1 through GS-4 depending on education and ex- perience	Civil Service Summer Employment Examination
	College graduates, graduate students, faculty members, equivalent experience.	Pay equivalent to GS-5 through GS-12	Apply to NIH Personnel Staffing Branch.
<b>D. Fogarty International Scholars</b>	International reputation, produc- tivity, demonstrated ability in biomedical field	\$30,000 per annum	Recommendation to Fogarty Center by Institute Director or Scientist. Contact Director in area of interest.

<sup>1</sup>Does not necessarily indicate that positions are currently available at the National Cancer Institute.

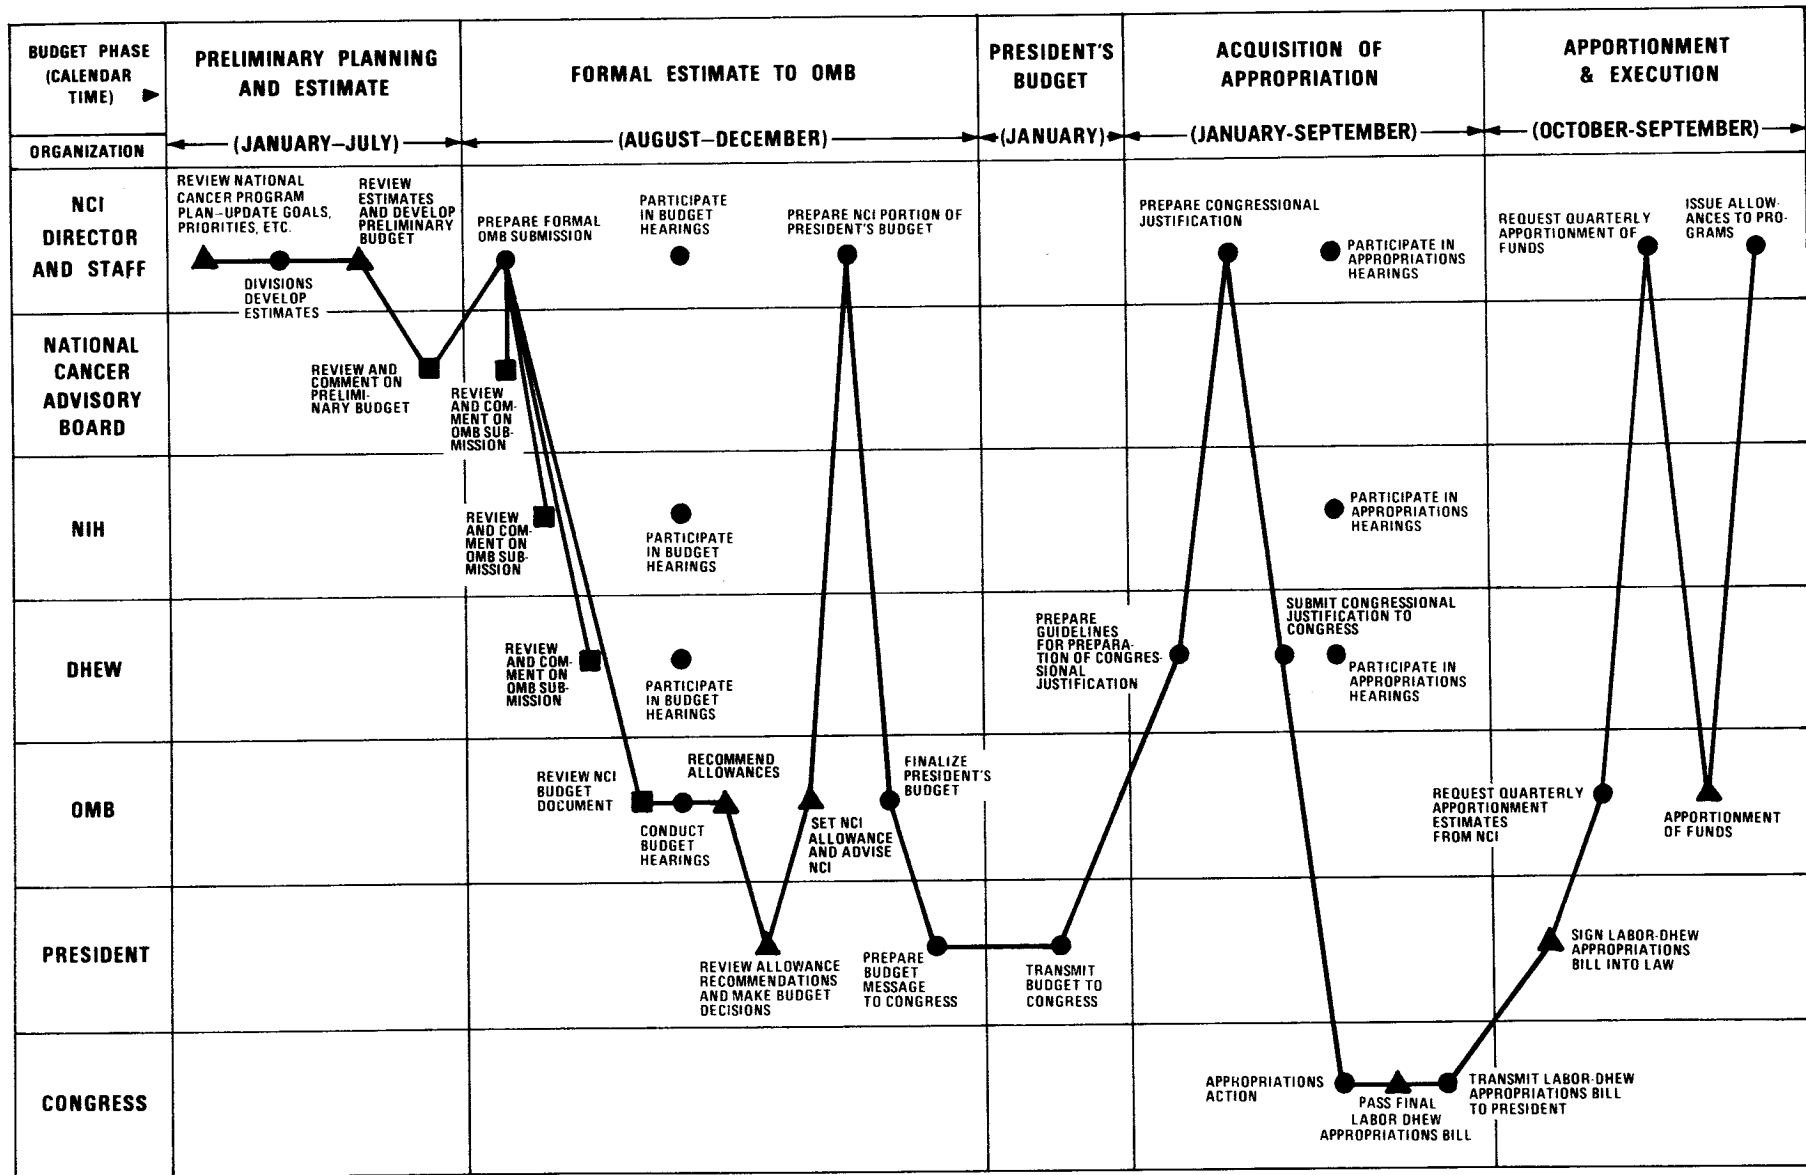

<sup>2</sup>Appointments are made upon intellectual attainment and demonstrated research interest and ability matched to NCI's needs.

<sup>3</sup>Under most circumstances, the various visiting programs are limited to non-citizens.
