Artist Statement

My art has been inspired by the energy and power of creation.

I grew up in the mountains of Cordoba , Argentina and nature has been my inspiration from an early age. We are all responsible for the future of this planet and the well being of our inheritors not only our kids but the plants, animals, rivers & oceans too.

Earth is the spirit of us all.

It graciously sustains every thing with in for millions of years.

The world is....Magnificent , Magnanimous & Mysterious.
