** **ACASI** (audio computer-assisted self-interviewing): Respondent reads questions on screen or listens to questions through headphones and then records answers into computer.

2003 NATIONAL SURVEY ON DRUG USE AND HEALTH
CAI INSTRUMENT REVISIONS

General/Misc.

- All questions within the interview that request verbatim entries to specify responses of "other" are now scripted for the Field Interviewer (FI).

All Core Drugs

- Inconsistency resolution questions for recent new users were added to all core drug modules in 2002. These questions are triggered if there is a discrepancy between the respondent's age at first use and month/year of first use. The respondent is routed through inconsistency resolution questions that ask which piece of information is correct, then ask the respondent to fix the incorrect pieces(s) of information.

- For 2003, the logic in this series of inconsistency resolution questions was modified to skip the last question in the series if the re-reported month and year matches the respondent's age at first use, or is the same as month and year originally given.

Module Specific

Introduction

- Updated CAI instrument version, OMB Number and OMB expiration date.

Core Demographics

- After QD01 (respondent gender), a question was added, QD01a, to verify that the FI has entered the correct gender of the respondent.

- Question QD06 (which race **best** describes you) is deleted as required by OMB.

Beginning ACASI Section

- The Introduction to the ACASI Tutorial has been scripted so that the presentation to all respondents is standardized. The introductory script stretches across two screens - INTROACASI1 and INTROACASI2

- A screen, HEADPHONE, has been added to the beginning of the Tutorial. This screen is now the first audio file that the respondent hears. The screen plays while the respondent is adjusting the headphones, so they don't miss any of the ACASI introduction.

Hallucinogens

- Logic was changed at the beginning of the Hallucinogens module, to correct the fill wording used throughout the module:

  ‣ Revised the hallucinogen "fills" in question LS02 and LSLAST for respondents whose only use was LSD, PCP, or Ecstasy but who answered one or more other lifetime hallucinogen questions as DK or RE. For these respondents, the respective "fills" will be "LSD or any hallucinogen," "PCP or any hallucinogen," or "Ecstasy or any hallucinogen."

  ‣ For respondents whose only use was LSD, PCP, or Ecstasy and who answered all other lifetime hallucinogen questions as "no," the respective "fills" will continue to be "LSD," "PCP," or "Ecstasy." In these situations, respondents have unambiguously used only the one hallucinogen that they reported.

  ‣ No changes were made to the skip/routing logic.

- In the Hallucinogens section, there are consistency checks for related recency among substances. If a respondent revised their first recency (i.e., "any hallucinogens" changes from over 12 months ago to past 30 days) in response to a consistency check, the CAI was not capturing the past 12 months and past 30 day frequency of use for that substance. To capture this information, a parallel set of questions was set up after each recency consistency check. Any respondent who revises their recency and has not received the past 12 months and/or past 30 day frequency of use questions are routed through them (LSFRAME4 - LSCC80, LSFRAME5 - LSCC89, and LSFRAME6 - LSCC98).

Inhalants

- On the first screen of the Inhalants module, the list of inhalants was corrected to include "other anesthetics" with "halothane and ether", and to include "lacquer thinner or other paint solvents".

Stimulants

- In the Stimulants section, there are also consistency checks for related recency among substances. If a respondent revised their first recency in response to a consistency check, the CAI was not capturing the past 12 months frequency of use for that substance. To capture this information, a parallel set of questions was set up after this recency consistency check. Any respondent who revises their recency and has not received the past 12 months frequency of use questions are routed through them (ST10a - ST13a).

Special Drugs

- In SDHEUSE (How have you used heroin?), "powder" was added to the end of response option 2 to be consistent with question SD04 (recency of sniffed/snorted heroin powder).

Risk/Availability

- Item count questions in the Risk/Availability section (RK05 - RK19) have been deleted.

Substance Dependence and Abuse

- The Drug Dependence and Withdrawal section was renamed Substance Dependence and Abuse to be consistent with SAMHSA documentation.

- In the Substance Dependence and Abuse module, the calculation for ST12MON (used a stimulant within the last 12 months) was incorrect. SD10b (recency of methamphetamine use with a needle) was omitted. Logic was changed for 2003 to include this question in the calculation of the ST12MON variable.

Added new module:
Prior Marijuana and Cigarette Use

- This module was designed to capture additional information on respondents' history of marijuana and cigarette use. It consists of four main questions, with inconsistency resolution questions. The four main questions ask:
  - lifetime marijuana users - if they've used marijuana or hashish the year before last (LU01)
  - former marijuana users who last used over 30 days ago - how old they were the last time they used marijuana (LU02)
  - former cigarette smokers who last smoked over 30 days ago - how old they were the last time they smoked a cigarette (LU03)
  - former daily cigarette smokers - how old they were the last time they smoked daily

Treatment

- For TX22a (reasons for not getting needed drug or alcohol treatment) and TX23a (reasons for not getting **additional** needed drug or alcohol treatment), frequencies were high for the "other, specify" categories. Responses for these categories with the highest frequencies were added as new categories on subsequent screens (TX22b and TX23b, respectively).

- The "other, specify" variables TX22SP1-4 and TX23SP1-4 were deleted.

Adult Mental Health ServiceUtilization

- For ADMT27 (reasons for not getting needed mental health treatment), frequencies were high for the "other, specify" category. "Other" responses with the highest frequencies were added as new categories on a subsequent screen (ADMT27a).

- The "other, specify" variables ADMT27SP1-4 were deleted.

Social and Neighborhood Environment

- The Social Environment module was renamed Social and Neighborhood Environment.

- The Item Count questions were deleted (SEN12d-SEN12k).

- Questions SEN03a-d, SEN05-11c, SEN13a, and SEN 13c-14d were deleted. Questions remaining are SEN04 (how many times moved in the past 5 years), SEN12a-c (illegal behavior questions), SEN13b (how respondent feels about adults using marijuana once or twice) and the four religion questions (SENRELAT, SENREB1, SENREB2, SENREB3 and SENREB4).

- A 10-item neighborhood cohesiveness scale was added to this section (SEN01a - SEN02e).

Youth Experiences

- The item count questions were deleted (YE10h-YE10o).

Serious Mental Illness

- The seven questions that pertain to affective psychosis were deleted (NPVOICE - NPVISION).

End of ACASI

- At the end of the ACASI section, once the FI goes through ENDAUDIO, the ACASI portion of the interview will be locked. The FI can still make corrections to front-end demographics, but the CAI program will skip over the ACASI sections.

Back-End Demographics

- For respondents currently in grades 1-12, new questions were added about the type of school the respondent attends (QD18a-d) . This group of questions required a new showcard.

- For question QD24 (reasons for leaving high school before getting a diploma), the phrase I GOT SOMEONE PREGNANT was added to the end of response option 2.

- For question QD25 (how old were you when you stopped attending school), error checks were added if QD25 is less than 10 or if QD25 is greater than the respondent's current age. If either of these errors are triggered, the FI is prompted to fix them before continuing with the interview.

- To accommodate the Census coding operations, character lengths for the open-ended Industry & Occupation questions were shortened.

- In the household roster, some respondents were confused about the "self" category in MRELATON and FRELATON (what is this person's relationship to you?) when rostering themselves. An interviewer note was added to these two questions that allows the FI to prompt the respondent with "Is this you?" if the FI notices the respondent is having trouble.

- Edit checks within the household roster were added to help get the highest quality data in the field. The FI receives an error message if:

  ✓ A respondent has a spouse or partner that is 16 years old or younger

  ✓ The respondent is 16 years old or younger, and has a spouse or partner

  ✓ The respondent's son- or daughter- in-law is the same age as or older than the respondent

  ✓ The respondent's father- or mother- in-law is the same age as or younger than the respondent

  ✓ The respondent's biological parent is less than 13 years older than the respondent

  ✓ The respondent's biological child is less than 13 years younger than the respondent

  ✓ The respondent's biological sibling is 25 years (or more) older or younger than the respondent.

  The FI is instructed to either fix the incorrect information, or explain the response.

- The instruction to exit PROXYINT (introduction to the proxy questions) was changed from press ENTER to press "1".

- In QP01, the FI has had to manually enter the relationship of the proxy to the respondent.

This was changed for 2003. Relationship information from the household roster is now filled into this question, and the FI enters the roster number of the proxy. The proxy's relationship to the respondent is then filled into subsequent questions.

- The Medicare and Medicaid questions (QHI01 and QHI02) were rearranged so that for each question, the definition is read before the question. The last syllable ("**care**" and "**aid**") in these terms is highlighted in the questions, prompting the FI to emphasize the term.

- Verification questions were added for respondents less than 65 years old who indicated they received Medicare(QHI01v), and respondents 65 or older who indicated they received Medicaid (QHI02v). For both verification questions, the respondent is re-read the definition of Medicaid or Medicare, and then asked to verify their answer.

- Updated state Medicaid/Medicare, TANF and CHIP program names.

- QI16a - wording changed to not repeat the definition of child support the second time the question is read.

- If the respondent indicates in QI20 that their personal income is more than $20,000 a year, they skip over the question that asks if the total family income is more or less than $20,000 (QI22).

FI Debriefing Questions

- Questions asking the FI to estimate how many pillcards the respondent used (FIDBF04a-b) were deleted

- For the question that asks for how much of the ACASI portion of the interview the respondent had their headphones on (FIDBF04c), a category was added for NONE/TOOK HEADPHONES OFF IMMEDIATELY.

calendar   CALENDAR

Throughout the rest of this questionnaire, you will be asked to answer a number of questions about three specific time periods, namely the past 30 days, the past 12 months, and your lifetime. To help you remember the first two time periods, let's mark this calendar with the beginning dates for each one of them.

SHOW CALENDAR TO RESPONDENT.

Now let's think about the past 30 days. According to the calendar **[DATEFILL]** was 30 days ago, so I will write **[DATEFILL]** here on the calendar. I'll call that your 30-day reference date.

WRITE 30-DAY REFERENCE DATE ON CALENDAR AND CIRCLE DAY; UNDERLINE ENTIRE 30-DAY PERIOD.

A number of questions will ask about the past 12 months, that is since this date last year. Let's look at the calendar and find that date — **[DATEFILL]**. I'll call that your 12-month reference date.

WRITE 12 MONTH REFERENCE DATE ON CALENDAR, AND CIRCLE DAY ON CALENDAR.

Please use this calendar as we go through the interview to help you remember when different things happened. I will remind you to think about your 30-day reference date and your 12-month reference date when I ask you questions.

Beginning ACASI Section

IntroAcasi1   An important part of this interview is the sections you will conduct completely on your own using the computer and the headphones. Before you begin, I will help you go through a short practice session to learn how to use the computer. Let me quickly point out the keys you will use. The computerized practice session that follows will go through what each key does in greater detail.

MOVE COMPUTER SO RESPONDENT CAN USE IT AND POINT OUT THE FOLLOWING:

[POINT TO THE ROW OF FUNCTION KEYS] First, these are the function keys. The function keys and what they do are labeled for you.

[POINT TO F3] If you don't know the answer to a question, press F3.

[POINT TO F4] If you don't want to answer a question, press F4.

[POINT TO THE ROW OF NUMBER KEYS] These are the number keys

[POINT TO THE BACKSPACE KEY] and the Backspace key is here

[POINT TO THE BOTTOM OF THE SCREEN] The answers that you enter will show up here at the bottom of the screen.

[POINT TO ON/OFF SWITCH] This button up here turns the machine on and off. Please do not press it! It will turn the machine off, and we'll lose the interview.

[POINT TO TOUCHPAD] Also, please do not touch this pad. This will disable the interview.

PRESS [ENTER] TO CONTINUE.

IntroAcasi2   Please put on your headphones.

You can adjust the volume here [POINT TO VOLUME ADJUSTMENT BUTTON ON SIDE OF COMPUTER]
or here [DEMONSTRATE VOLUME ADJUSTMENT ON THE HEADPHONE CORD].

When you are ready, let me know, and we'll press the "1" key to continue. The next screen will allow you to adjust the volume on your headphones.

ONCE RESPONDENT HAS HEADPHONES ON, PRESS "1" TO CONTINUE.

HeadPhone   We have set up this screen to play while you adjust the volume in your headphones. When you have adjusted the volume to a level that is comfortable to you, press the large [ENTER] key on the right side of the keyboard to continue with the practice session. The [ENTER] key is the one with the ↵ symbol on it.

Tutorial

INTRO1 Welcome to the RTI self-interviewing system. We developed this system so that you can control the interview yourself and enter your answers in complete privacy.

First, you will learn how to use the system and complete some practice questions. You will learn how to enter answers, how to back-up if you make a mistake and want to change an answer, and what to do if you do not know the answer to a question.

Press the large [ENTER] key on the right side of the keyboard to move to the next screen. The [ENTER] key is the one with the ↵ symbol on it.

INTRO2 In this system you can read the questions on the computer screen and hear them read through the headphones. If you would like to just see the questions on the screen, you can turn off the voice. You will learn how to do this.

Press the large [ENTER] key on the right side of the keyboard to move to the next screen. The [ENTER] key is the one with the ↵ symbol on it.

8

HEAROFF   You can lower the sound by adjusting the control on the cord of the headphones. Or, if you don't want to listen to the sound at all, you can press the **[F7]** key to turn the sound off. If you want to hear the questions read aloud, you can press the **[F7]** key again to turn the sound back on.

Press [ENTER] to continue.

GOTDOG   You answer questions by putting in numbers that correspond to your answer. The numbers are located in the second row of keys.

To answer a question, you first press the correct number and then press [ENTER] to send the answer to the computer. Practice this now.

Do you have a dog?

1   Yes
2   No
DK/REF

EYECOLOR   The last question was a Yes-No question. Sometimes questions will have more answers to choose from, and you will select an answer from a list.

What color are your eyes? Put in the number that best fits you and press the [ENTER] key.

1   Blue
2   Gray
3   Brown
4   Black
5   Some other color
DK/REF

ALLAPPLY   Some questions will let you choose more than one answer.   For these questions, you will use the space bar to separate the answers you type in. Try doing this on the next question. Put in more than one answer, using the space bar between your answers.

What kinds of music do you listen to?

To select more than one kind of music from the list, press the space bar between each number you type. When you have finished, press the [ENTER] key to go to the next question.

1   Country
2   Soul/R&B
3   Jazz
4   Classical
5   Pop/Rock
6   Hip Hop
7   Techno
8   Latin American/Spanish
9   Other Folk/Ethnic
DK/REF

NUMBER   Other questions will ask you to type in a number rather than choosing a category.

In the past 30 days, on how many days did you eat breakfast? Type in the number of days you ate breakfast and press [ENTER].

_____ [RANGE: 0 - 30]
DK/REF

STOPLIST   If the list is long, and we come to your answer before the end, you can interrupt the voice and put your answer in as soon as you decide what it is.

Try doing this on the next question. Put in your answer while the list is being read. Remember to press [ENTER].

9

When do you want to interrupt this list?

1   First answer
2   Second answer
3   Third answer
4   Fourth answer
5   Fifth answer
6   Sixth answer
7   Seventh answer (Go ahead and press 7 and [ENTER] now.)
8   Eighth answer (This is the last answer choice. Press 8 and [ENTER] now.)
DK/REF

DOAGAIN   You can also hear a question read more than once. To do this, you press the **[F10]** key. Try this now.

Questions can be read more than once and it is up to you to tell the computer when you want to hear a question again. You can hear it as many times as you like.

How many times did you listen to this screen?

1   I have listened to this screen more than once.
2   I have only listened to this screen one time
DK/REF

BACKUP   If you want to change or review an answer to a previous question, you can back up using the **[F9]** key. Each time you press the **[F9]** key the computer will go back one question.

Press [ENTER] to continue.

rangeerr   For some questions, the computer can only accept certain answers. For example, in the question below, the only answers the computer will accept are 1 for YES and 2 for NO.

If you try to enter some other number as your answer, a small box labeled **Input Invalid** will appear on the screen. To correct your answer, you must press the **[ENTER]** key to make the box disappear and then use the **Backspace key** to remove your old answer. You can then answer the question again.

Try this with the question below. Type a 3 as your answer. Press the **[ENTER]** key to remove the **Input Invalid** box. Use the **Backspace key** to remove your answer and type in a valid answer.

Do you have a cat?

1   Yes
2   No
DK/REF

INCONSIS   At times the computer may ask you to review one of your answers. Other times, it may think two of your answers disagree and ask you to tell which one is correct and then fix the wrong one.

Also, at certain times the computer will instruct you to ask your interviewer to show you some pictures. Be sure to ask for these pictures when you get to this instruction.

Press [ENTER] to continue.

ANYQUES   If you have any questions, ask your interviewer now. Otherwise, press [ENTER] to begin.

Tobacco

LEADCIG   These questions are about your use of tobacco products. This includes cigarettes, chewing tobacco, snuff, cigars, and pipe tobacco. The first questions are about cigarettes only.

Inhalants

INHINTRO   These next questions are about liquids, sprays, and gases that people sniff or inhale to get high or to make them feel good.

We are not interested in times when you inhaled a substance accidentally — such as when painting, cleaning an oven, or filling a car with gasoline. The questions use the word 'inhalant' to include all the things listed below, as well as any other substances that people sniff or inhale for kicks or to get high. Take a moment to look at the substances listed below so you know what kinds of liquids, sprays, and gases these questions are about.

Amyl nitrite, 'poppers,' locker room odorizers, or 'rush'
Correction fluid, degreaser, or cleaning fluid
Gasoline or lighter fluid
Glue, shoe polish, or toluene
Halothane, ether, or other anesthetics
Lacquer thinner, or other paint solvents
Lighter gases, such as butane or propane
Nitrous oxide or 'whippets'
Spray paints
Other aerosol sprays

INTRPILL   Now we have some questions about drugs that people are supposed to take only if they have a prescription from a doctor.

We are only interested in your use of a drug if:

• the drug was **not** prescribed for you, or
• you took the drug only for the experience or feeling it caused.

Press [ENTER] to continue.

Pain Relievers

INTROPR1   These questions are about the use of **pain relievers**. We are **not** interested in your use of "over-the-counter" pain relievers such as aspirin, Tylenol, or Advil that can be bought in drug stores or grocery stores without a doctor's prescription.

                  Ask your interviewer to show you Card A.

                  Press [ENTER] to continue.

INTROPR2   Card A shows pictures of some different kinds of prescription pain relievers and lists the names of some others. These pictures show only pills, but we are interested in your use of **any** form of prescription pain relievers that were **not** prescribed for you or that you took only for the experience or feeling they caused.

                  Please look at Card A carefully as you answer the next questions.

                  Press [ENTER] to continue.

PR01   Please look at the pain relievers shown in Box 1 **above** the red line on Card A.

Have you ever, even once, used **Darvocet, Darvon, or Tylenol with codeine** that was **not** prescribed for you or that you took only for the experience or feeling it caused?

    1   Yes
    2   No

INTROST1   These next questions ask about the use of drugs such as amphetamines that are known as **stimulants**, 'uppers,' or 'speed.' People sometimes take these drugs to lose weight, to stay awake, or for attention deficit disorders. We are **not** interested in the use of "over-the-counter" stimulants such as Dexatrim or No-Doz that can be bought in drug stores or grocery stores without a doctor's prescription.

Ask your interviewer to show you Card C.

Press [ENTER] to continue.

Sedatives

INTROSV1   These next questions ask about the use of **sedatives or barbiturates**. These drugs are also called "downers" or "sleeping pills." People take these drugs to help them relax or to help them sleep. We are not interested in the use of "over-the-counter" sedatives such as Sominex, Unisom, Nytol, or Benadryl that can be bought in drug stores or grocery stores without a doctor's prescription.

Ask your interviewer to show you Card D.

Press [ENTER] to continue.

INTROSV2   Card D shows pictures of some different kinds of prescription sedatives and lists the names of some others. These pictures show only pills, but we are interested in your use of **any** prescription sedatives that were **not** prescribed for you, or that you took only for the experience or feeling they caused.

Please look at Card D carefully as you answer the next questions.
