Transmittal No. 07-41

Taipei Economic and Cultural Representative Office in the United States - AGM-84L HARPOON Block II Missiles

WASHINGTON, August 8, 2007 - The Defense Security Cooperation Agency notified Congress of a possible Foreign Military Sale to the Taipei Economic and Cultural Representative Office in the United States of AGM-84L HARPOON Block II missiles as well as associated equipment and services. The total value, if all options are exercised, could be as high as \$125 million.

The Taipei Economic and Cultural Representative Office in the United States has requested a possible sale of 60 AGM-84L HARPOON Block II missiles, 2 HARPOON guidance control units, 30 HARPOON containers, 30 HARPOON extended air-launch lugs, 50 HARPOON upgrade kits from AGM-84G to AGM-84L configuration, missile modifications, test equipment and services, spares and repair parts for support equipment, training, publications and technical documents, U.S. Government and contractor technical assistance, and other related elements of logistics and program support. The estimated cost is \$125 million.

This proposed sale serves U.S. national economic and security interests by supporting the recipient's continuing efforts to modernize its armed forces and enhance its defensive capability. The proposed sale will help improve the security of the recipient and assist in maintaining political stability, military balance, and economic progress in the region.

This sale is consistent with United States law and policy as expressed in Public Law 96-8. The U.S. is committed to providing military assistance under the terms of the Taiwan Relations Act.

The recipient uses HARPOON missiles to enhance its self-defense capabilities. The recipient has previously purchased both air and surface launched HARPOON missiles and will be able to absorb and effectively utilize the additional missiles.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to the recipient.

The prime contractor will be McDonnell Douglas Company, a wholly owned subsidiary of Boeing Company in St. Louis, Missouri. Although the purchaser generally requires offsets, at this time, there are no known offset agreements proposed in connection with this potential sale.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law; it does not mean that the sale has been concluded.
