This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country.

The proposed sale of these vehicles, equipment, and support will enhance the ability of the Iraqi forces to sustain themselves in their efforts to bring stability to Iraq and to prevent overflow of unrest into neighboring countries.

The proposed sale of this equipment and support will not affect the basic military balance in the region.

The contractors are unknown as this time. There are no known offset agreements proposed in connection with this potential sale.

With the volume and wide range of items and equipment in this proposed sale, levels of US Government and Contractor technical assistance will be required, but cannot be fully defined at this time. The use of existing deployed U.S. military personnel will be maximized.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law; it does not mean that the sale has been concluded.
