Transmittal No. 09-50

Singapore – F-16 Pilot Training and Logistics Support

WASHINGTON, September 9, 2009 – Today the Defense Security Cooperation Agency (DSCA) notified Congress of a possible Foreign Military Sale to the Government of Singapore the continuation of the Continental United States (CONUS) pilot proficiency training program for PEACE CARVIN II and munitions, services and support for F-16C/D aircraft. The estimated cost is \$250 million.

The Government of Singapore has requested a possible sale for the continuation of the Continental United States (CONUS) pilot proficiency training program for PEACE CARVIN II and munitions, services and support for F-16C/D aircraft which include: 35,000 20mm cartridges, aircraft modification kits, maintenance, participation in joint training exercises, fuel and fueling services, supply support, flight training, spare and repair parts, support equipment, program support, publications and technical documentation, personnel training and training equipment, U.S. government and contractor engineering, technical, and logistics support services, and other related elements of logistical and program support.

This proposed sale will contribute to the foreign policy and national security of the U.S. by helping to improve the security of a critical regional partner which has been, and continues to be, an important force for economic progress in Southeast Asia. This proposed sale will help augment the Republic of Singapore's self-defense capability and will ensure interoperability with U.S. forces for coalition operations. Singapore is a firm supporter of U.S. overseas contingency operations.

Singapore needs these munitions, services and equipment to continue a long-term pilot proficiency-training program at Luke Air Force Base, Arizona. This program will enable Singapore to develop mission-ready and experienced pilots through its CONUS training program to support Singapore's current and future F-16 aircraft inventory. The long-term pilot training program in CONUS continues a professional interaction and enhances operational interoperability with U.S. forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

There is no prime contractor involved in this program. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Singapore.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.
