

PEO EIS TOUCHES EVERY SOLDIER, EVERY DAY.

PEO EIS products and systems cover the full spectrum of tactical and management information systems including financial, human capital, business, medical, logistics, transportation, biometrics, and communications infrastructure support. PEO EIS executes approximately \$4 billion a year-equal to about 35% of the Army's Information Technology (IT) budget

Mission

Enable information dominance by developing, acquiring, integrating, and deploying Enterprise-wide, network-centric information management and communications to meet the Army's current and future mission requirements.

Vision

Rapidly deliver cost-effective, easy-to-use, IT-based capabilities to the Army Enterprise.

World-Wide Presence

PEO EIS has major components at locations across the nation and around the world.
