

## Background

On August 13, 2008, the Department of Commerce ("Department") published the notice of preliminary results of the administrative review of the countervailing duty order on dynamic random access memory semiconductors from the Republic of Korea, covering the period January 1, 2006 through December 31, 2006. See *Dynamic Random Access Memory Semiconductors from the Republic of Korea: Preliminary Results of Countervailing Duty Administrative Review*, 73 FR 47131 (August 13, 2008). On September 23, 2008, the petitioner, Micron Technology, Inc. ("Micron"), filed a case brief. On September 29, 2008, the respondent, Hynix Semiconductor Inc., filed a rebuttal brief.

## Statutory Time Limits

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended ("the Act"), requires the Department to issue the final results of an administrative review within 120 days after the date on which the preliminary results are published. If it is not practicable to complete the review within the time period, section 751(a)(3)(A) of the Act allows the Department to extend this deadline to a maximum of 180 days.

## Extension of Time Limit for Final Results

In its case brief, Micron requested that the Department take further steps to address the alleged circumvention of the countervailing duty order. The Department needs additional time to consider Micron's request and to act on this request if warranted. As a result, it is not practicable to complete this review within the originally anticipated time limit (*i.e.*, by December 11, 2008). Therefore, the Department is extending the time limit for completion of the final results by 60 days to not later than February 9, 2009, in accordance with section 751(a)(3)(A) of the Act.

We are issuing and publishing this notice in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Dated: November 20, 2008.

*Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.*

[Docket No.: 080122071-81377-02]

#### Announcement of the Establishment of a Laboratory Accreditation Program (LAP) for Laboratories Performing Interoperability, Performance, and Conformance Biometrics Testing Under the National Voluntary Laboratory Accreditation Program and Technical Requirements for Such a LAP

**AGENCY:** National Institute of Standards and Technology, Commerce.

**ACTION:** Notice.

**SUMMARY:** Under the National Voluntary Laboratory Accreditation Program (NVLAP) the National Institute of Standards and Technology (NIST) announces the establishment of a laboratory accreditation program and the availability of applications for accreditation of laboratories that perform biometric testing including interoperability, performance, and conformance testing using internationally recognized standards developed by the American National Standards Institute (ANSI), NIST, and by the International Committee for Information Technology Standards (INCITS). Additional standards may be identified throughout the development of the accreditation program technical requirements.

**ADDRESSES:** Laboratories may obtain NIST Handbook 150, *NVLAP Procedures and General Requirements*, NIST Handbook 150-25, *Biometrics*, and an application for this program by calling (301) 975-4016, by writing to NVLAP Biometrics Testing Manager, National Voluntary Laboratory Accreditation Program, 100 Bureau Drive/MS 2140, Gaithersburg, MD 20899-2140, or by sending e-mail to [nvlap@nist.gov](mailto:nvlap@nist.gov). All applications for accreditation must be submitted to: NVLAP/Accounts, National Institute of Standards and Technology, Building 101, Room A800, 100 Bureau Drive/MS 1624, Gaithersburg, MD 20899-1624.

**FOR FURTHER INFORMATION CONTACT:** Brad Moore, Program Manager, NIST/NVLAP, 100 Bureau Drive, Stop 2140, Gaithersburg, MD 20899-2140, Phone: (301) 975-5740 or e-mail: [brad.moore@nist.gov](mailto:brad.moore@nist.gov).

Information regarding National Voluntary Laboratory Accreditation Program (NVLAP) and the accreditation process can be obtained from <http://www.nist.gov/nvlap>.

#### SUPPLEMENTARY INFORMATION:

*Background:* In 2007, the United States Department of Homeland Security (DHS) requested that NIST establish a laboratory accreditation program for laboratories performing interoperability, performance, and conformance biometrics testing on Personal Identification Verification equipment used in Homeland Security Applications. According to guidance developed by DHS, laboratory accreditation by NVLAP is a recommended step in assuring reliability and quality practices as part of a conformance test program for biometric access control devices.<sup>1</sup>

Biometric technologies such as facial, fingerprint, iris, and voice recognitions are used to verify the identity of individuals attempting to gain access to secure areas. The purpose of the proposed Biometrics Laboratory Accreditation Program is to evaluate testing laboratories' technical competencies against known standards and testing criteria that will ultimately be used to provide confidence in the performance of biometric sub-systems.

In accordance with NVLAP procedures (15 CFR Part 285), on February 29, 2008, NIST published a notice in the **Federal Register** requesting comments on the proposed establishment of a laboratory accreditation program for laboratories
