

## Third Thursday Lecture Series

Thursday, January 17<sup>th</sup>, 2013

6:00 - 7:00 p.m.

Mokupāpapa Discovery Center, Hilo

**FREE EVENT**

### *“Ocean Frontiers”*

The Dawn Of A New Era In Ocean Stewardship

#### Topics Include:

- Marine Stewardship
- Marine Resource Management

*Ocean Frontiers* is an inspiring voyage to seaports and watersheds across the country where unlikely allies—farmers, shippers, scientists, fishermen and conservationists—are working together to sustain the sea and our ocean economies.

*Ocean Frontiers* takes a balanced, bipartisan approach to both the problems we face in managing our oceans and the solutions at hand. The film features on-the-ground reporting from places across the country that are at the forefront of implementing promising new approaches to ocean and coastal management.

Industrial shippers and whale biologists, pig farmers and wetland ecologists, sport and commercial fishermen, reef snorkelers and many more—are embarking on a new course of cooperation, in defense of the seas that sustain us.

*Ocean Frontiers* shows unlikely allies coming together and crafting solutions for the good of ecosystems and industry, while not sugarcoating the conflicts or the sometimes-difficult road to the end result. The film shows the groups as true partners in the process.
