Lawrence Livermore National Laboratory Environmental Report 2009

The purposes of this annual report are to record LLNL's compliance with environmental standards and requirements, describe LLNL's environmental protection and remediation programs, and present the results of environmental monitoring at the two LLNL sites—the Livermore site and Site 300.

We strive to provide information that is understandable and clear and that communicates effectively the Laboratory's efforts to protect human health and the environment. We also try to make the electronic version of the report and the website where it is posted (<https://saer.llnl.gov/>) as user friendly as possible. Your feedback on this survey will help us gauge how successful we have been.

Your input will be carefully considered.

I have do not have technical knowledge in the environmental sciences.

The technical level was too high too low inconsistent just right.

The background information was sufficient insufficient inconsistent just right.

The writing was too wordy too concise inconsistent just right.

The illustrations and tables were helpful difficult to understand.

I did did not use the glossary.

If yes, the glossary had did not have what I was looking for.

I found the website navigation tools to be sufficient insufficient.

I found the navigation tools in the report to be sufficient insufficient.

I read the report on screen as a printed copy on screen and as a printed copy.

I did did not print any or all of the report.

If yes, I did did not have problems printing.

Comments:

Thank you very much for completing the survey. Please return to:
