

Public Notice Submission

Provider Name: Alenco Communications, Inc.

Summary: Alenco Communications, Inc. is capable of providing Broadband service to 97% of customers in our certificated rural areas with technologies including ADSL, Fiber to the Home and point to point wireless. Our current product offerings already make 768K downloads available with continued upgrades planned. Current Fiber to the Home projects are underway which will upgrade an additional 37% of Alenco's customer base to state of the art technologies. Constant monitoring of customer needs and demands as well as regulatory requirements prompt deployment of new technologies and services. As a carrier of last resort and current RUS/USDA borrower Alenco has been enabled to exceed present broadband requirements by deployment of cutting edge technologies.
