

## **Public Notice Submission**

**Provider Name:** Bright House Networks, LLC

**Summary:** In support of NTIA's efforts to optimize the distribution of the scarce resources available under the ARRA Broadband NOFA, Bright House Networks is providing additional data related to the Applicants' planned service areas. This application includes service areas which are not unserved nor underserved. In addition to the service areas identified in this response, Bright House Networks, LLC can provide high speed data, dedicated access and managed service to community institutions in adjacent service areas.
