

## **Public Notice Submission**

**Provider Name:** Consolidated Communications, Inc.

**Summary:** Consolidated Communications has facilities-based, terrestrial broadband service available to over 250,000 households, or approximately 95% of its 3 state footprint (IL, PA, TX) at speeds ranging from 3 Mbps to 10 Mbps. Furthermore, in areas where 10 Mbps speeds are available, 20 Mbps is also available using pair bonding as customer demand necessitates. In addition to Consolidated, the proposed funded census tracts have access to broadband service through up to 8 other providers including wireline, wireless and cable companies.
