

Public Notice Submission

Provider Name: Dakota Central Telecommunications

Summary: Dakota Central Telecommunications is completing the BTOP Response form because we feel that the granting of monies applied for by XO Communications Easygrant #5601 would be an unnecessary duplication of service. As a part owner of Dakota Carrier Network (DCN Round 2 BTOP Easygrant #4278) we find that Dakota Central Telecommunications and DCN have all the bandwidth we need to provide rural North Dakota with reliable and affordable highspeed broadband. DCN is the premier middle mile carrier in North Dakota and is able to fulfill all the broadband needs of its owner companies along with other large customers in the state and we support their Round 2 BTOP application.
