

Public Notice Submission

Provider Name: Mid-Rivers Telephone Cooperative, Inc.

Summary: Mid-Rivers Telephone Cooperative, Inc., d/b/a Mid-Rivers Communications, currently provides broadband utilizing our own facilities and a variety of technologies to serve over 13,000 subscribers throughout Eastern and Central Montana. We provide broadband today to 7,508 subscribers in 25 Census Tracts included in the BTOP Proposed Funded Service Areas list, which are identified on the "Coverage and Subscription Data" tab of this response. Over 10,000 premises out of the nearly 14,000 in these 25 Census Tracts currently have access to broadband at speeds of at least 5 Mbps downstream from our company. Mid-Rivers also offers higher-speed Business Internet services utilizing Ethernet technology in several areas including Sidney, Glendive and Miles City, which are all included in the BTOP Proposed Funded Service Areas. Mid-Rivers' Business Internet service offers symmetrical speeds scalable up to 100 Mbps at rates starting at less than \$20 per Megabit.
