

Public Notice Submission

Provider Name: Wausau MSA, LLC.

Summary: The NTIA/BTOP applications seeking to provide service in census block/tracts covering portions of Marathon county would duplicate offerings from Wausau MSA, LLC. Such applications would severely diminish the value of Wausau MSA's investment. The service territories targeted in these applications are not unserved. As the attached 'Service Tiers' and 'Coverage and Subscription Data' spreadsheets demonstrate, Wausau MSA, LLC. provides wireless broadband Internet service in these areas. Although the entire area is built out for wireless broadband service, Cellcom only recently introduced this service in the listed census block groups. Therefore the subscriber numbers are rather low.
