

COMMUNITY CONNECTIONS

LAWRENCE LIVERMORE NATIONAL LABORATORY

Lawrence Livermore National Laboratory (LLNL) takes great pride in contributing to the nation's security — and equal pride in being a good neighbor in our local communities. More than 2,700 of our almost 6,400 employees live in the Tri-Valley, and just over 1,200 live in the Central Valley. The Laboratory is the largest employer in the City of Livermore and the fourth largest employer in Alameda County. We are also one of the largest employers in the City of Tracy residents. Our total annual payroll for all employees is just over \$697 million.

Lab employees are active in a broad range of civic, educational, and professional organizations at the local, regional, state, and national levels. They also give generously to the community through extensive volunteer work and charitable donations. Our annual employee charitable fund-raising drive, the HOME (Helping Others More Effectively) Campaign, raised more than \$2 million in employee pledges in 2009. Lawrence Livermore National Security, LLC (LLNS), the Lab's managing contractor, matches up to \$1 million in employee pledges, making LLNL one of the largest charitable contributors in the region.

COMMUNITY CONNECTIONS

LAWRENCE LIVERMORE NATIONAL LABORATORY

LLNL also has been recognized as the leading fundraiser in the Greater Bay Area for the American Cancer Society's annual Daffodil Days campaign, as well as the largest Northern California donor to the annual American Red Cross blood drive.

Community Relations & Educational Outreach

Our Community and Education Programs office works to foster greater public awareness of the Laboratory's mission and improve science education through mutually beneficial relationships with local government, civic groups, school districts, and the general community. It is responsive to community inquiries and concerns, sharing information and facilitating communication. To help strengthen science education, it offers a variety of educational outreach programs for local students and teachers. To find out more, visit our Community & Education Programs website: <https://publicaffairs.llnl.gov/>

Business Opportunities

About one-third of the Lab's \$1.5 billion annual operating budget is spent on the procurement of goods and services — an amount in excess of \$447 million. Companies interested in doing business with the Laboratory should refer to the Business Opportunities website: <https://www.llnl.gov/llnl/business/index.jsp>

LLNL also is a leader in technology transfer to the private sector. We have active commercial licenses with 625 companies, 117 of which are in California. Companies interested in commercialization partnerships should refer to our Industrial Partnerships Office website: <https://ipo.llnl.gov/>

See for Yourself

To find out more about the Laboratory and its national mission, visit our website at <http://www.llnl.gov>. You'll find information on our scientific and engineering research, as well as our activities in and on behalf of our local communities.

If you are in the area, stop by and visit us. Our Discovery Center is open to the public Tuesday through Friday from 1 to 4 p.m. and on Saturdays from 10 a.m. to 2 p.m. In addition, community tours for adults are available. Pre-registration is required. To sign up for a tour, go to <https://publicaffairs.llnl.gov/com/tours.html> or call (925) 424-4175. Super Science field trips for 5th grade classes and Lab tours for high school classes are also offered. Go to <http://education.llnl.gov/student.html> or call (925) 424-4175 for information.
