

DDTC

Deployed Digital Training Campus

Rugged.
Adaptable.
Deployable.

DDTC SATCOM Antenna

What is a DDTC?

A deployable digital classroom that uses satellite communications to deliver Army training to deployed Soldiers worldwide. Transportable by HMMWV, MRAP or like sized vehicles.

The DDTC provides:

- Web-access to career training and course credit.
- Real-time instruction (e.g. Structured Self-Development-I, III & IV courses) via Video Tele-Training.
- Access to Learning Management Systems.
- Access to Army e-Learning and ACCP courses.
- Continuance of online college degree programs.
- Reach-back capabilities to Army Proponent Schools.
- Shared training, lessons learned, and “battle handoff”.
- Unclassified and Classified training requirements.
- Wide-area & local-area access to collaboration applications.
- FCB2 and OneSAF simulations.

Deploying brigades interested in acquiring a DDTC should contact DLS at pd.dls@dls.army.mil.
