PostalOne!®

Release 31.1.0 Patch Notes – Version 1

The *PostalOne!* Patch Release 31.1.0 will be deployed August 12, 2012 to introduce software upgrades to the system, correcting issues that have been identified.

These Release Notes provide the contents of the release and its effect on the following areas.

1. Mailers (External)

PostalOne! Patch Release 31.1 will be deployed to introduce software upgrades to the system. Those upgrades will include corrections to issues previously identified from previous releases.

The following items are of interest to external users of the *PostalOne!* system.

1.1 Mail.dat Processing

The rate levels located on the Qualification Report for rate categories A1, B1 and D1 will be mapped to align with Price Level Column Headings for Enhanced Carrier Route Standard Mail. Previously, the rate levels located on the Qualification Report were incorrect. (98196)

The *PostalOne!* system will accommodate for Enclosure Statements with total weights greater than or equal to one-hundred pounds. Previously, when submitting a periodical with a first class or standard mail enclosure an internal error was thrown during postage statement processing of enclosures with total weight greater than or equal to one-hundred pounds. (98562)

1.2 Postal Wizard

The *PostalOne!* system will allow Standard Mail postage statements entered for permit imprint accounts with nonprofit pending authorization. Previously, the Standard Mail postage statements could not be entered into the *PostalOne!* system for permit imprint accounts with nonprofit pending authorization. (101362)

The link for the PS Form 3533 (Application for Refund of Fees, Products and Withdrawals of Customer Accounts) will be removed from the Postal Wizard page. (100951)

1.3 Dashboard

PostalOne! system users will be able to retrieve all postage statements on the Mailer and BMEU dashboards. Previously, there were instances where postage statements would not open and prevented finalization. (95835)

1.4 Parcel Post

PostalOne! system users will be able to enter a Postage Statement 3605 for Lightweight/Irregular/Parcels for Non-Identical Piece Weight and not receive a timestamp error. Previously, users encountered a timestamp error entering Lightweight/Irregular/Parcels statement for Non-Identical Piece Weight on line G11. (95759)

1.5 International Mail

The calculation for affixed postage for mailers with an International Customized Mail (ICM) will be corrected. (94706)

1.6 Electronic Verification System (eVS)

The automatic Reconciliation Adjustment Notification email will be sent daily for adjustments that have closed within the past 24 hours. Previously, the automatic Reconciliation Adjustment Notification email was sent daily for adjustments closed within the past month. (100894)
