

January 26, 2010

Dr. Brenda Miller  
CP12 Functional Chief Representative/Senior Safety Advisor  
USA CR/SC, Building 4905, 5<sup>th</sup> Avenue,  
Fort Rucker, AL 36362-5363

Dear Dr. Miller:

On January 15, 2010 the Certificate Accreditation Program Accreditation Committee (CAPAC) met and took action on the result of the U.S. Army Combat Readiness/Safety Center's Initial Assessment Report. CAPAC approved the Initial Assessment Report with three non-conformities, one opportunity for improvement and two commendations as delineated in ANSICA 2.0 and agreed the all non-conformities have been closed. I am very pleased to inform you that the CAPAC voted to approve the recommendation of the assessors and to award the U.S. Army Combat Readiness/Safety Center accreditation under ASTM E2659-09 for following scope:

- *CP 12 Safety Professional Certificate*

I have attached a draft electronic copy of the accreditation certificate. Please let me know immediately if any information on the certificate is incorrect. On behalf of ANSI I would like to extend our congratulations on this significant achievement. ANSI looks forward to a continued partnership and is delighted to have the U.S. Army Combat Readiness/Safety Center as an ANSI Accredited Certificate Issuer.

If you have any questions on how to refer to your accreditation status or regarding your program please do not hesitate to contact me directly.

Sincerely,

A handwritten signature in black ink that reads "M. Turan Ayvaz". The signature is fluid and cursive, with the first letters of each name being capitalized and prominent.

M. Turan Ayvaz  
Program Manager,  
Certificate Accreditation Program
