

# Woods Hole Science Aquarium

## What's in a Name? Part I

Each of these marine animals in the Aquarium has another kind of animal in its name. Find each of these animals in a tank in the Aquarium and write its common name below its picture.

Think about it: Is there something about a **Cowfish** that is like a **cow**?  
What is it about each animal that gives it its name?
