

SMART MOVES FOR AMERICAN HOUSEHOLDS

- ❖ Without hoarding, try to keep on hand 7-10 days of food, water, and fuel.
- ❖ If you have a personal automobile, be sure it is ready for immediate use. Fill the gas tank and check oil, water, tires, and battery.
- ❖ If your passport and registration are not current with the Embassy, please contact us at 2220-1500.
- ❖ Collect all important papers and documents in one place. Some important documents are: passports; birth, marriage, divorce and naturalization certificates; employment records; school transcripts; medical and dental records; prescriptions; inoculation cards; insurance policies; bank statements and checkbooks; as well as U.S. and local currency. You may also want to make an inventory in duplicate of any household effects you would have to leave behind should you have to depart suddenly.
- ❖ Listen to local and international media closely for announcements from the Cameroonian government or from the Embassy.
- ❖ Know who your warden is and keep their number by the telephone. Be sure that your warden can reach you promptly.

Please pass this notice on to other American citizens and keep it handy for your reference.

My Warden is: _____ at # _____
