

A Message to our Patients with Diabetes:

We need one more
very important person on our team:

Care Provider

Dietitian

Specialist

YOU!

It takes a Team to Manage Diabetes.

We Recruit You!

The patient is always the MVP—Most Valuable Player—when it comes to managing diabetes. It takes a team to

address the many issues associated with diabetes management. By working

together we can keep you feeling your best and prevent the serious complications that can be associated with diabetes. Follow your meal plan.

Test your glucose levels. Follow your medication directions.

Staying on track is important.

Don't let us down. Your team is counting on you!

Be the MVP on our team!
