

October 1, 2010 - The following USAPHC legacy publications are currently under review or their active status has changed. For questions, please contact [USAPHC Publication Management Division](#).

## TECHNICAL GUIDES

TG 004 Guide for Developing Medical Directives for Occupational Health Nurses

TG 040 Noise Hazard Evaluation - Sound Level Data of Noise Sources

TG 085 Hazard Analysis of Broad-Band Optical Sources

TG 103 Prevention and Control of Plague

TG 124 Occupational Health Program Manual

TG 138 Guide to Commensal Rodent Control

TG 142 Managing Health Hazards Associated with Bird and Bat Excrement

TG 143 Evaluation and Control of Occupational Exposure to Ethylene Oxide in Health Care Facilities

TG 144 Guidelines for Controlling Health Hazards in Painting Operations

TG 146 Pentachlorophenol-Treated Materials

TG 149 (*obsolete, to be replaced by TB MED 515*) Guidelines for Controlling Occupational Exposure to Hazardous Drugs

TG 154 Guide for Developing a Physical Assessment Protocol

TG 168 Occupational Health Program Employee Handbook

TG 176 How to Write and Manage Standing Operating Procedures (SOPs)

TG 181 Noise Dosimetry and Risk Assessment

TG 183 Developing Your Chemical Hygiene Plan

TG 185 Commander's Guide to the Health Risk Assessment Process

TG 189 Procedures for the Pesticide Resistance Testing Field Kit (Mosquitoes, Lice, and Stored Product Pests)

TG 191 Design Review and Inspections of Child Development Centers

TG 194 Environmental Health Aspects of Food Service Facilities Design Review

TG 196 Guide to Poisonous and Toxic Plants

TG 199 Surface Water Treatment Rule (SWTR) Guidance for CONUS & OCONUS Installations

TG 202 Field Environmental Science Officer Checklist

TG 204 (*rescinded*) Glossary of Terms for Nuclear, Biological and Chemical Agents and Defense Equipment

TG 208 Procedures for Thermal Control of Cockroaches in Food Service Facilities

TG 208 Supplement Precision Targeting of Heat for German Cockroach Control in Food Service Facilities

TG 211 Radiobioassay Collection, Labeling, and Shipping Requirements

TG 216 Meeting the Wellhead Protection Requirements

TG 217 Hazardous Material/Hazardous Waste Management Guidance for Maneuver Brigades During Field and Contingency Operations

TG 218 General and Detailed Facts About Agents

TG 224 Bacteriological Surveillance of Drinking Water

TG 227 Standing Operating Procedures for the Direct Push Sampling System

TG 230RD Reference Document for "Chemical Exposure Guidelines for Deployed Military Personnel"

TG 236A Basic Radiological Dose Estimation - A Field Guide

TG 238 Radiological Sources of Potential Exposure and/or Contamination

TG 243 Combat Stress Card

TG 249 The Coding Book for Occupational and Environmental Medical Practices

TG 252 Guidelines on the Design and Operation of Systems in Disease Isolation Areas

TG 254 Standard Practice for Wildlife Toxicity Reference Values

TG 256 Breast-Self Examination A Facilitator's Guide

TG 260 (*rescinded*) Corporate Training Plan

TG 261 (*rescinded*) Leadership Development Guide

TG 262 (*rescinded*) Scientist and Engineer Career Development Guide

TG 263 (*rescinded*) Technician Career Development Guide

TG 270 Educating the Public About the Hazards of Ultraviolet Radiation

TG 277 Army Facilities Management Information Document on Mold Remediation Issues

TG 278 Industrial Hygiene/Preventive Medicine Mold Assessment Guide

TG 284 Drinking Water Consumer Complaints: Indicators from Distribution System Sentinels

TG 288 Entomological Operational Risk Management - How to Perform an Entomological Operational Risk Assessment

TG 295 The Warfighter's Guide to Dietary Supplements - What You Really Need to Know

#### **TECHNICAL INFORMATION PAPERS**

Assessment of Composting Feasibility at Army Installations (*rescinded*)

Natural Resource Damage and Claims: Potential Department of Defense Liabilities and Mitigation Opportunities (*rescinded*)

## **FACT SHEETS**

Anthrax

Anthrax Vaccine - What You Need to Know

Assessment of Medical Threat to Installations to Prioritize Force Protection/AntiTerrorism (FP/AT) Chemical, Biological, or Radiological (CBR) Efforts

Atovaquone and Proguanil (Anti-Malarial Medication) - What You Need to Know

Beryllium Exposure & Berylliosis

Corrosion of Household & Water Utility Piping

Countering Terrorism of Drinking Water Supplies

Dealing with the Stress of Recovering Human Dead Bodies

DOT Regulates 10-24.9% Formaldehyde Solutions

Drinking Water Consumer Complaints

Dust and Sand - Individual

Dust and Sand - Medical

Ecstasy Use in the Army

Electromagnetic Interference and Medical Equipment

Electromagnetic Interference of Video Display Units by Extremely Low Frequency Magnetic Fields

Environmental Pesticides - Individual

Environmental Pesticides - Medical

Escherichia Coli O157:H7 Information for Consumers

Escherichia Coli O157:H7 Information for Food Service Personnel

Evaluation for Occupational Hearing Loss

Exposure to Oil Fire/Oil Fire Smoke - Medical

Exposure to Oil Fires/Oil Fire Smoke - Individual

Fog Oil - Individual

Fog Oil - Medical

Food Safety - Mad Cow Disease

Granisetron - What You Need to Know

Guidelines for Controlling Occupational Exposure to Hazardous Drugs

Handling Suspicious Packages

Hazard Alert: Potential for Eye Injury from Medical Lasers Used in Dermatological Surgery

Hazard Communication

Health Care Provider Fact Sheet - Bovine Spongiform Encephalopathy (BSE) or "Mad Cow Disease" and Variant Creutzfeldt-Jakob Disease (vCJD)

Health Care Provider Guidance on DD 2796

Health Information for World Trade Center Support Personnel

Health Risk Communication

HIV/AIDS

Hospital Safety and Security infant Abduction

How to Handle Mail with a Biological Threat

Irradiated Mail

JP-8-Individual

JP-8-Medical

Laser Eye Exposures - Individual

Laser Eye Exposures - Medical

Laser Hazard Evaluation of U.S. Army Fielded Laser Systems

Lasers and Their Effects on the Human Eye

Lead (Inorganic) - Individual

Lead (Inorganic) - Medical

Maintenance of Multiple Integrated Laser Engagement Systems (MILES) Training Devices

Management Guidance for Aerosol Can Disposal

Management of Waste from the ThinPrep Processor

Medical Safety and Security Workplace Violence Frequently Asked Questions

Medical Safety and Security Workplace Violence Hazard Prevention and Control

Medical Safety and Security Workplace Violence Management Commitment & Worker Involvement

Medical Safety and Security Workplace Violence Safety and Health Training

Medical Safety and Security Workplace Violence Work Site Analysis

Mercury Vapor and Metal Halide Lamps Used for Illumination

Mold Related Health Complaints - An Integrated Clinical and Environmental Approach

Noise and Hearing Loss

Occupational Ototoxins (Ear Poisons) and Hearing Loss

Overview of Technical Directorates

Paints - Individual

Paints - Medical

Perchlorate in Drinking Water

Pest Strips - Individual

Pest Strips - Medical

Protecting the Eye in Sports

Provider Fact Sheet: Asbestos

Radio Frequency Radiation - Individual

Radio Frequency Radiation - Medical

Recommendations for OH Training

Reference Concentration

Solid Waste Burning (Trash and Feces Fires) - Individual

Solid Waste Burning (Trash and Feces Fires) - Medical

Solvents - Individual

Solvents - Medical

Stress and Combat Performance

Taking an Individual Exposure History

Tent Heaters - Individual

Tent Heaters - Medical

The ORISE Program at USACHPPM

Tinnitus and Noise Induced Hearing Loss

Tuberculosis Screening in Healthcare Workers Frequently Asked Questions

USACHPPM Worksite Wellness Program

Vehicle Exhaust Gases - Individual

Visible Laser Pointer: Effects on Vision

When to Supply Prescription Safety Glasses

Whole-body Vibration

Worker Safety and Security Workplace Violence Serious Incident Reporting, Emergency Response, Follow-up, Investigation, and Record Keeping

## **HAZARDOUS AND MEDICAL WASTE FACT SHEETS**

Accumulation Point Management

Antifreeze Recycling

Attachment A to Mercury in Healthcare

Attachment B to Mercury Reduction in Health Care

AudioVisual Lending Library

Barium Sulfate Management

CARC Paint Formulations

CERCLA Reporting Requirements

Changes to the Hazardous Waste Identification Rule

Chemical Distillation at MTFs

Classification of Expired Pharmaceuticals

Destruction of Classified CD-ROM and Diskette Materials

Disposal of Bouin's Fixative Solution

Disposal of Flameless Ration Heaters

Disposal of Pipette Tips and Needles Used in a Laboratory Setting

Disposition of Single Use Silver/Silver Chloride Patient Electrodes

DOT Regulates 10 - 24.9% Formaldehyde Solutions

Ethyl Alcohol Characterization and Disposal

Household Medical Sharps Management

Ignitable Waste Exclusion

Incinerator Ash Sampling

Low Mercury Lamps

Management of Waste Streams Associated with Photo Processing Operations

Managing Lithium Sulfur Dioxide Batteries

Nitroglycerin Patch Management

Recycling of Outdated CD-ROM Disks
