The United States Air Force Academy

When it comes to choosing a college, options seem almost endless. For the highly motivated high school graduate who is looking for something more from their college experience, The United States Air Force Academy is easily the first choice.

At a time when options are wide open, those who consider bigger goals, deeper learning, time-honored character development and possibly, a more rewarding future, choose to attend one of the most prestigeous educational institutions in the world.

The Academy offers a world-class education, the opportunity to fly, and a guaranteed career right out of college. Many cadets create professional relationships that last a lifetime. It is true that there is no financial cost to attend the Academy, but there is a hefty price tag. Academy cadets pay for their education with sweat, hard work, early mornings, and late nights. They are held to the highest standards, without exception, and upon graduation are required to serve at least five years as a leader in the United States Air Force.

With that price comes an experience that can't be found anywhere else. Air Force Academy cadets are surrounded by other young Americans who are pushing themselves to the limits, developing strength and character and discovering the qualities that make great leaders.

Any college can prepare you for an ordinary career. Those who attend the United States Air Force Academy will become prepared for an extraordinary life. Visit www.academyadmissions.com.
