Blue Grass Army Depot (BGAD) is a Strategic Mobility Power Projection ammunition depot and the primary Southeast Regional Distribution Point for all Department of Defense (DOD) munitions. BGAD's prime mission is to receive, store, issue, maintain, renovate and demilitarize both conventional and non-standard ammunition for all DOD services.

BGAD supports U.S. Warfighters by providing immediate response and operational readiness support to joint units engaged in Overseas Contingency Operations. BGAD is also the Army's sole source provider of non-standard ammunition for Special Operation Forces (SOF).

BGAD's Chemical Defense Equipment (CDE) warehouse is the primary distribution point for the Army's Individual Chemical Equipment Management Program (ICEMP) and the Army's sole source provider of Individual Protective Equipment (IPE)

BGAD capabilities include rapid industrial response, producing metal add-on components for weapon, ammo and vehicle systems.

## DEPOT CAPABILITIES

- ✓ **INDUSTRIAL SERVICES - PRODUCTION OF WEAPON, VEHICLE AND AMMO METAL ADD-ON COMPONENTS:**  
MACHINING, WELDING, MILLING, BENDING, PAINTING, IMAGING, ASSEMBLING, KITTING, SHIPPING
- ✓ **AMMO STRATEGIC OUTLOADING**
- ✓ **AMMO MAINTENANCE/RENOVATION**
- ✓ **AMMO DEMILITARIZATION**
- ✓ **AMMO QUALITY ASSURANCE**
- ✓ **CHEMICAL DEFENSE EQUIPMENT**  
INDIVIDUAL PROTECTIVE EQUIPMENT

## DEPOT FACTS

- ✓ **ESTABLISHED 1941**
- ✓ **14,596 ACRES**
- ✓ **853 MUNITIONS IGLOOS**
- ✓ **152 MILES OF ROAD**
- ✓ **41 MILES OF RAIL TRACK**
- ✓ **RAIL SPUR (CSX MAIN LINE)**
- ✓ **STRATEGICALLY LOCATED**
- ✓ **MAJOR INTERSTATE INTERCHANGES:**  
I-75 & I-64 (NORTH/SOUTH, EAST /WEST)
- ✓ **ON-BASE HELIPAD**
- ✓ **C5A / C17 ACCESS**  
BLUE GRASS AIRPORT / LEXINGTON

## STRATEGIC OUTLOADING

- ✓ Strategic Outload Facility  
730K lb. NEW Limit (1.1)
- ✓ Attached Box and Crate Shop
- ✓ Containerized Roll On / Off Platform (CROP)
- ✓ 19 Other Outload/Receipt Loading Points (LP)
- ✓ MILVAN Handling Equipment / Repair Facility
- ✓ Multiple Rail Lines
- ✓ Centralized Ammunition Management (CAM)

## CHEMICAL DEFENSE EQUIPMENT

- ✓ Chemical Material Surveillance Program (CMSP)
- ✓ Automated Warehouse System
- ✓ Masks and Protective Clothing
- ✓ Testing / Inspection / Repair of CDE Equipment
- ✓ Wholesale / Retail Stocks
- ✓ Individual / Collective Decontamination Equip.

## MAINTENANCE / RENOVATION

- ✓ Eight Multi-purpose Renovation, Maintenance and Disassembly Facilities
- ✓ Power Conveyor Systems
- ✓ Overhead Monorail w/Grit Blast Machine, Paint Booth, Thermal Arc Coating and Drying Booths
- ✓ 100,000+ sq.ft. of Work Space
- ✓ Rapid Response Deluge System

## DEMILITARIZATION

- ✓ Open Detonation  
30 Pits @ 100 lbs NEW/Pit  
3,000 NEW (1.1)  
3 Shots/day
- ✓ Open Burning  
2 Burn Pans  
2K lbs. NEW/Pan  
4K lbs. NEW (1.3)

- ✓ DET Chamber
- ✓ Disassembly
- ✓ Washout Facility
- ✓ Flashing Furnace System (FFS)

## SURVEILLANCE FACILITIES

- ✓ Two Surveillance Bldgs. w/5 Inspections Bays @ 425 lbs. NEW/Bay
- ✓ Six Storage Cells w/IDS Capable of Storing Cat I or II Munitions
- ✓ Conduct Periodic Inspections (PI), Receipt Inspections (RI) and Storage Inspections (SI)
