

Woods Hole Science Aquarium Summer Interns

Lindsay

The 2003 Summer Interns came from:

- Barnstable High School
- Cohasset High School
- Falmouth High School
- Hopkinton High School
- Hudson High School

Perry and Kim in front of the salmon tank

Liz

In the Aquarium, the Interns:

- Prepped food for fish, turtles and seals
- Served as guides to the touch tanks
- Fed fish, turtles, and seals
- Cleaned fish tanks
- Scrubbed the seal pool
- Sprayed down floors
- Made posters
- Organized the voting for the new seal's name

Bonnie, Lindsay, and Liz with a green sea turtle

Coco and the new little seal

The Interns also worked on:

- A web-based guide to the aquarium
- A guide to the touch tanks
- A brochure for volunteers
- Repainting marine animals on the floor

Field trips included:

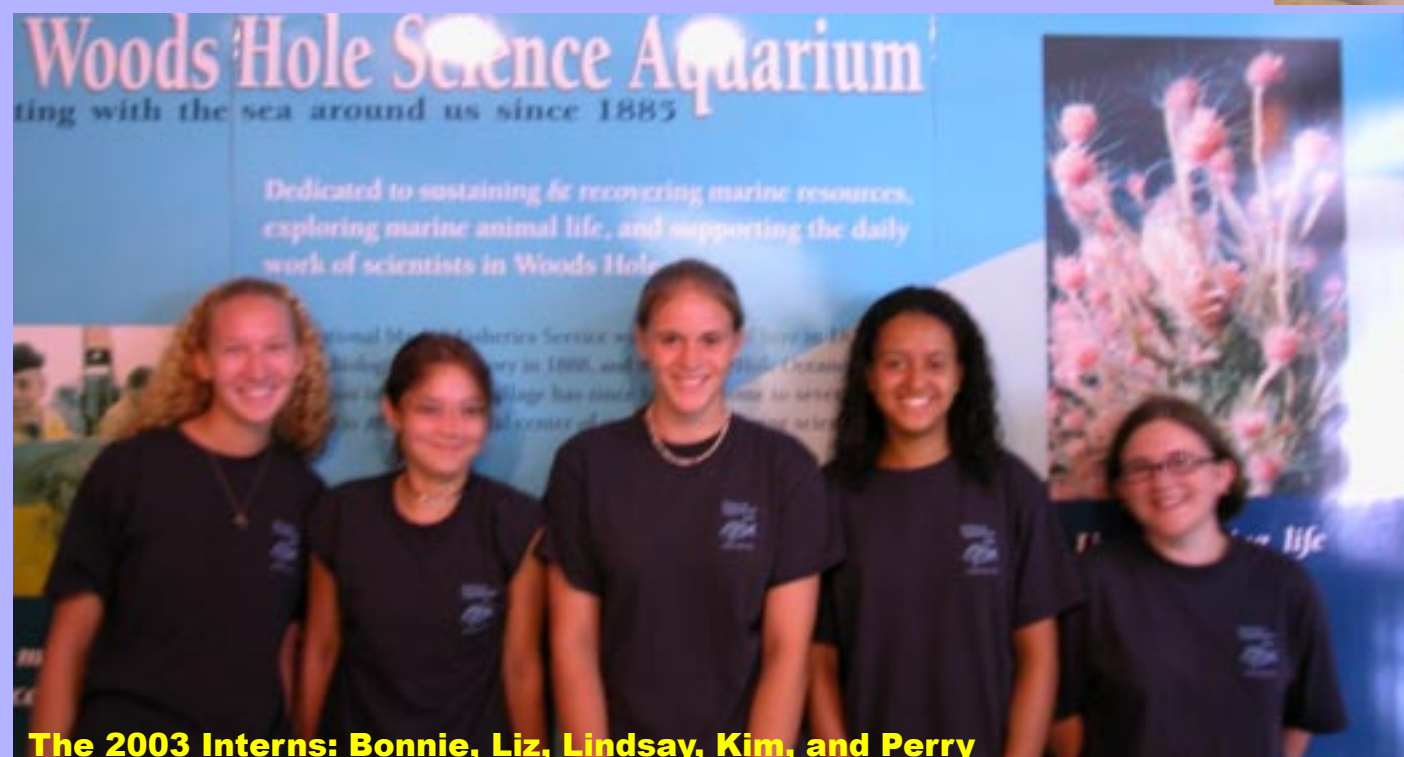

- Near shore collecting trips
- An MBL collecting trip in Buzzards Bay
- A WHOI research lab
- WHOI's exhibit center
- The MBL library
- MBL's Marine Resources Center
- Stranding of a grampus in Quisset Harbor

Perry covering the touch tanks

The Interns Attended Seminars on:

- Marine Veterinary Medicine
- Fish Identification
- Whales
- Sea Turtles
- Seals
- Lobsters
- Studies of Fish Age and Growth
- Larval Dispersal
- Squid Neurons and Neurobiology
- Fish Stock Assessment
- Atlantic Salmon
- The 2003 Buzzards Bay Oil Spill
- Fishery Management

The 2003 Interns: Bonnie, Liz, Lindsay, Kim, and Perry
