

Parks For Tots!

With the generous contributions from the Camp Parks community the Parks Fire Department can again claim a successful “Toys for Tots” collection drive which began late November and ending December 15.

“There were 245 toys donated to Toys for Tots this year, said Travis Reed of the Camp Parks Department”. Further he said, “This is a great achievement for Parks Reserve Forces Training Area and the Fire Department who was spearheading this operation. This selfless act of kindness [from the community] has enabled the United States

Marine Corps to meet the significant challenge of providing joy and hope to millions of our nations neediest children during this Christmas season “.

During the holiday season Parks Fire Department establishes collection points at Building 620, Building 520 Fire Station, Front Gate, Building 521 Community Activities Center, AAFES Branch Exchange, and Building 332 Dining Facility. Units wanting to participate in this annual event should contact the fire department for future coordination.
