Project Description

The Teton Canyon Road is located approximately five miles north of Choteau, MT off of Highway 89. The road heads west to access Eureka Reservoir, Lewis and Clark National Forest, and Teton Pass Ski Resort. Work under this project consists of repaving the first 18 miles to a consistent width, flattening side slopes to increase safety, replacing culverts, and replacing and updating road signs and pavement striping. The scheduled completion date for the project is November 15, 2011.

Road Surface conditions

The existing pavement is still currently in place. There are some isolated spots of loose gravel, please use caution. Traffic control cones and other devices have been removed for the season and will be reset once work resumes in 2011.

Current and Upcoming Work

All construction work is currently shutdown for the winter. Aggregate crushing operations have been completed. Road work is currently scheduled to resume in July 2011 and finish in November 2011. Work may resume earlier if weather conditions allow.

Traffic Delays

There are currently no traffic delays.

The Storm Water Pollution Prevention Plan (SWPPP) for this project is available for viewing at the Office of the Project Engineer, located at 820 N. Main in Choteau.
