

U.S. ARMY

# COMMUNICATIONS-ELECTRONICS COMMAND

*One Vision, One Mission—the Warfighter*

## About

## U.S. Army Information Systems Engineering Command (ISEC) *Fort Huachuca, Arizona*

The U.S. Army Information Systems Engineering Command (USAISEC) provides systems engineering, installation, integration implementation and evaluation support for communications and information technology systems worldwide providing capabilities to Army organizations, Combatant Commanders, Department of Defense agencies and Federal agencies in support of the warfighter. USAISEC's mission includes the design, engineering, integration, development, sustainment, installation, testing, and acceptance of information systems. The USAISEC is a subordinate element of the U.S. Army Communications-Electronics Command, located at Aberdeen Proving Ground, Maryland.

**Mission:** To provide systems engineering, installation, integration, implementation and evaluation support for communications and information technology systems worldwide providing capabilities to Army organizations, Combatant Commanders, DoD agencies and federal agencies in support of the warfighter.

**Vision:** To remain ready, relevant and trusted in providing communications and information technology systems engineering for the warfighter and Army transformation.

The USAISEC provides matrix support to the Program Executive Officer and Program Manager structure for systems engineering and integration of assigned information systems. We hope you find our website to be an effective tool for obtaining information about our organization.

**Mission Areas:** Headquartered at Fort Huachuca, Arizona, USAISEC is comprised of eight elements to include:

- Enterprise Systems Engineering Directorate
- Fort Detrick Engineering Directorate
- Fort Lee Engineering Directorate
- Information Assurance and Security Engineering Directorate
- Mission Support Directorate
- National Capital Region Engineering Directorate
- Technical Support Group
- Technology Integration Center
- Transmission Systems Directorate
