

Smallpox and its Eradication

F. Fenner, D. A. Henderson,
I. Arita, Z. Ježek, I. D. Ladnyi

World Health Organization
Geneva

THE AUTHORS

Frank Fenner, M.D., has been a professor at the Australian National University since 1949. Since 1969 he has been a member of the WHO Informal Group on Monkeypox and Related Viruses and of various WHO committees on orthopoxviruses, and in 1978–1979 was Chairman of the Global Commission for the Certification of Smallpox Eradication. He is currently a Visiting Fellow in the John Curtin School of Medical Research, Australian National University, Canberra.

Isao Arita, M.D., worked for the smallpox eradication programme in western Africa in 1962–1963 as a member of the staff of the WHO Regional Office for Africa. In 1964 he was transferred to WHO Headquarters in Geneva, and in 1966 he joined the Smallpox Eradication unit, of which he was Chief from 1977 until 1984. He is now Director of the Kumamoto National Hospital in Japan and a member of the advisory group on international health of the Ministry of Health and Welfare of Japan.

Donald Ainslie Henderson, M.D., while at the Communicable Disease Center in the USA, was responsible in 1965–1966 for the planning of the western and central African smallpox eradication–measles control programme, conducted with the support of the United States Agency for International Development. From 1966 to 1977 he was Chief of the Smallpox Eradication unit in the World Health Organization. In 1977 he became Dean of the Johns Hopkins School of Hygiene and Public Health, Baltimore, Maryland, USA, and Professor of Epidemiology and International Health. He was a member of the Global Commission for the Certification of Smallpox Eradication.

Zdeněk Ježek, M.D., joined the field staff of the Intensified Smallpox Eradication Programme in 1972, working first with the WHO Smallpox Eradication and Epidemiological Advisory Team in the WHO South-East Asia Region and later in Somalia. He joined the Smallpox Eradication unit at WHO Headquarters in 1980 and became Chief of the unit in 1985.

Ivan Danilovich Ladnyi, M.D., served as a WHO Intercountry Adviser on smallpox eradication in Africa from 1965 to 1971. From 1976 to 1983 he was Assistant Director-General of the World Health Organization, responsible for communicable and parasitic diseases. He was then Deputy Director of the All-Union Institute of Medical Information of the Ministry of Health of the USSR from 1983 until his death in 1987.

For rights of reproduction or translation of WHO publications, in part or *in toto*, application should be made to the Office of Publications, World Health Organization, Geneva, Switzerland. The World Health Organization welcomes such applications.

The designations employed and the presentation of the material in this publication do not imply the expression of any opinion whatsoever on the part of the Secretariat of the World Health Organization concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries.

The mention of specific companies or of certain manufacturers' products does not imply that they are endorsed or recommended by the World Health Organization in preference to others of a similar nature that are not mentioned. Errors and omissions excepted, the names of proprietary products are distinguished by initial capital letters.

PRINTED IN SWITZERLAND

Smallpox and its eradication was published by WHO in 1988. It contains illustrative material both from WHO and from other published sources, as indicated. In the case of the latter, the copyright holders granted WHO permission to reproduce their material in this book.

Stocks of Smallpox and its eradication were exhausted some years ago and the book is now out of print. In view of current concern about the threat of smallpox, WHO has decided with some urgency to make the book available on the World Wide Web. WHO requests the understanding of the copyright holders of the illustrations from other published sources and invites those who object to their material being made available in this way to contact us at pubrights@who.int.

The book is a WHO copyright publication and therefore the terms of the WHO copyright notice apply (see www.who.int/m/topics/copyright_notice/en/index.html).

Contents

	Page
Foreword, by Dr Halfdan Mahler	vii
Preface	ix
Acknowledgements	xiii
Chapter 1. The clinical features of smallpox	1
Page 1-7	
Page 8-11	
Page 12-15	
Page 16-18	
Page 19-26	
Page 27-36	
Page 37-68	
Chapter 2. Variola virus and other orthopoxviruses	69
Chapter 3. The pathogenesis, pathology and immunology of smallpox and vaccines	121
Chapter 4. The epidemiology of smallpox	169
Chapter 5. The history of smallpox and its spread around the world	209
Chapter 6. Early efforts at control: variolation, vaccination, and isolation and quarantine	245
Chapter 7. Developments in vaccination and control between 1900 and 1966	277
Chapter 8. The incidence and control of smallpox between 1900 and 1958	315
Chapter 9. Development of the global smallpox eradication programme, 1958-1966	365
Chapter 10. The Intensified Smallpox Eradication Programme, 1967-1980	421
Page 421-442	
Page 443-458	
Page 459-498	
Page 499-516	
Page 517-538	

Chapter 11. Smallpox vaccine and vaccination in the Intensified Smallpox Eradication Programme	539
Chapter 12. South America	593
Chapter 13. Indonesia	627
Chapter 14. Afghanistan and Pakistan	659
Chapter 15. India and the Himalayan area	711
Page 711-756	
Page 757-805	
Chapter 16. Bangladesh	807
Chapter 17. Western and central Africa	849
Chapter 18. Zaire and Sudan	911
Chapter 19. Eastern Africa: Kenya, Uganda, United Republic of Tanzania, Rwanda and Burundi	945
Chapter 20. Southern Africa	969
Chapter 21. Ethiopia, Yemen and Democratic Yemen	997
Chapter 22. Somalia and Djibouti	1037
Chapter 23. Smallpox in non-endemic countries	1069
Chapter 24. The certification of eradication: concepts, strategy and tactics	1103
Chapter 25. Certification by international commissions: 1973-1977	1149
Chapter 26. Certification of 29 countries of Africa and Asia: 1978-1979	1195
Chapter 27. The completion of global certification: the Horn of Africa and China	1227
Chapter 28. Post-eradication operations: implementation of the recommendations of the Global Commission	1263
Chapter 29. Human monkeypox and other poxvirus infections of man	1287
Chapter 30. Potential sources for a return of smallpox	1321
Chapter 31. Lessons and benefits	1345
