

September 28, 2010

Gary W. Butner, Branch Chief
Radiologic Health Branch
Division of Food, Drug and Radiation Safety
CA Department of Health Services
P.O. Box 997414, MS-7610
Sacramento, CA 95899-7414

Dear Mr. Butner:

We have reviewed the proposed changes to the California Radiation Control Regulations 30108.1, 30115, 30145, 30190, 30191, 30192, 30192.1, 30192.2, 30192.3, 30192.4, 30192.5, 30225, 30226, and 30257, received by our office on August 5, 2010. These regulations were reviewed by comparison to the equivalent Nuclear Regulatory Commission (NRC) rules in 10 CFR Part 30, 31, 32, 40, and 150 and the requirements of the three amendments identified in the enclosed State Regulation Status (SRS) Data Sheet. We discussed our review of the regulations with Phillip Scott on September 23, 2010.

As a result of our review, we have 24 comments that have been identified in the enclosure. Please note that we have limited our review to regulations required for compatibility and/or health and safety. Under our current procedure, a finding that the California Radiation Control regulations meet the compatibility and health and safety categories of the equivalent NRC regulation may only be made based on a review of the final California Radiation Control regulations. However, we have determined that if your proposed regulations were adopted, incorporating our comments and without other significant change, they would meet the compatibility and health and safety categories established in the Office of Federal and State Materials and Environmental Management Programs (FSME) Procedure [SA-200](#).

We request that when the proposed regulations are adopted and published as final regulations, a copy of the "as published" regulations be provided to us for review. As requested in FSME Procedure [SA-201](#), "Review of State Regulatory Requirements," please highlight the final changes, and provide a copy to Division of Materials Safety and State Agreements, FSME.

The SRS Data Sheet summarizes our knowledge of the status of other California Radiation Control regulations, as indicated. Please let us know if you note any inaccuracies, or have any comments on the information contained in the SRS Data Sheet. This letter, including the SRS Data Sheet, is posted on the FSME website: <http://nrc-stp.ornl.gov/rulemaking.html>.

-2-

If you have any questions regarding the comments, the compatibility and health and safety categories, or any of the NRC regulations used in the review, please contact Kathleen Schneider, State Regulation Review Coordinator, at 415-2320 (kathleen.schneider@nrc.gov) or Stephen Poy at 415-7135 (stephen.poy@nrc.gov).

Sincerely,

/RA K.N. Schneider for/

Terrence Reis, Deputy Director
Division of Materials Safety and State Agreements
Office of Federal and State Materials and
Environmental Management Programs
