Mr. Roland G. Fletcher  
Environmental Program Manager III  
Radiological Health Program  
Air and Radiation Management Administration  
Maryland Department of the Environment  
2500 Broening Highway  
Baltimore, MD 21224

Dear Mr. Fletcher:

We have reviewed the final Maryland regulations (Supplement 7) to the Code of Maryland Regulations (COMAR) 26.12.01.01, for the Control of Ionizing Radiation (1994), which became effective on April 1, 2002. The regulations were sent on April 8, 2002. The final regulations are in response to the three amendments identified in the enclosed State Regulation Status (SRS) Data Sheet. The regulations were reviewed by comparison to the equivalent NRC regulations in 10 CFR Parts 20, 30, 34 and 35. In addition, we reviewed our October 13, 2000 letter to you that addressed the proposed regulations. We also discussed our review of the regulations with Mr. Mike Kurman on May 8, 2002.

As a result of the NRC review, we have determined that the Maryland regulations, as adopted, meet the compatibility and health and safety categories established in STP Procedure [SA-200](#).

The SRS Data Sheet summarizes our knowledge of other Maryland regulations. Please let us know if you note any inaccuracies or have any comments on the information contained in the SRS Data Sheet. This letter, including the SRS Data Sheet, is posted on the STP Web Site: <http://www.hsr.gov/nrc/rulemaking.htm>.

If you have any questions regarding the compatibility and health and safety categories, or any of the NRC regulations used in the review, please contact me or Mr. Duncan White at (610) 337-5042 or e-mail, [ADW@NRC.GOV](mailto:ADW@NRC.GOV).

Sincerely,

**/RA By Kathleen N. Schneider Acting for/**
