

February 16, 2007

Roland G. Fletcher, Manager III
Radiological Health Program
Air and Radiation Management Admin.
MD Dept. Of the Environment
1800 Washington Blvd., Suite 750
Baltimore, MD 21230-1724

Dear Mr. Fletcher:

We received Maryland's email response dated January 25, 2007 to our All Agreement State letter ([FSME-06-110](#)) dated December 12, 2006, regarding the implementation of the National Source Tracking System (NSTS) requirement to assign serial numbers to each nationally tracked source. According to FSME 06-110 any State that has licensees that are authorized to manufacture sources subject to tracking in the NSTS will need to take appropriate action to implement this requirement on or before February 6, 2007. From your response we understand that Maryland does not have any licensees which meet these conditions and, therefore, Maryland does not need to implement this requirement at this time. However, should Maryland in the future, acquire a licensee which is authorized to manufacture sources subject to tracking in the NSTS, Maryland would need to take actions to implement these requirements at that time.

Thank you for your quick and timely response to this matter.

The State Regulation Status (SRS) Summary Sheet, summarizes our knowledge of other Maryland regulations and legally binding requirements as indicated. Please let us know if you note any inaccuracies, or have any comments on the information contained in the SRS summary sheet. This letter including your SRS summary sheet is posted on the Office of Federal and State Materials and Environmental Management Programs (FSME) website: <http://www.hsrn.gov/nrc/rulemaking.htm>.

If you have any questions regarding this letter or the attached SRS summary sheet please contact Kathleen Schneider, State Regulation Review Coordinator at 301-415-2320 (email: kxs@nrc.gov) or Monica Orendi at 301-415-3938 (email: mlo1@nrc.gov).

Sincerely,

IRA By S.W. Moore

Scott W. Moore, Deputy Director
Division of Materials Safety and State Agreements
