

August 23, 2005

Mr. John Parker
Radiation Control Bureau
Field Operations Division
New Mexico Department of Environment
P. O. Box 26110
Santa Fe, NM 87502

Dear Mr. Parker:

We have reviewed the final revisions to the New Mexico regulations, New Mexico Radiation Protection (20.3 NMAC) Parts 3, 4, 12, 15, received by our office on July 20, 2005. These regulations were reviewed by comparison to the equivalent Nuclear Regulatory Commission (NRC) rules in 10 CFR Parts 20, 30, 31, 32, 36, 39, and 150 and the requirements of the six amendments identified in the enclosed State Regulation Status (SRS) Data Sheet. We discussed our review of the regulations with Stanley Fitch on August 23, 2005.

As a result of our review, we have no comments. Please note that we have limited our review to regulations required for compatibility and/or health and safety. We have determined that the regulations, as adopted, meet the compatibility and health and safety categories established in the Office of State and Tribal Programs (STP) Procedure [SA-200](#).

The SRS Data Sheet summarizes our knowledge of the status of other New Mexico regulations, as indicated. Please let us know if you note any inaccuracies, or have any comments on the information contained in the SRS Data Sheet. This letter, including the SRS Data Sheet, is posted on the STP website: <http://www.hrsd.ornl.gov/nrc/rulemaking.htm>.

If you have any questions regarding the review results, the compatibility and health and safety categories, or any of the NRC regulations used in the review, please contact me, or Linda McLean at 817-860-8116 or by e-mail at mlm1@nrc.gov.

Sincerely,

IRA By KNSchneider For

Dennis Rathbun, Deputy Director
Office of State and Tribal Programs
