Ms. Adela Salame-Alfie, Ph.D., Director  
Bureau of Environmental Radiation Protection  
New York State Health Department  
547 River Street  
Troy, NY 12180-2216

Dear Ms. Salame-Alfie:

We have reviewed the New York New York State Health Department proposed legally binding license conditions to implement increased controls for certain licensees that possess certain radioactive materials in quantities of concern, received by our office on November 7, 2005. This license conditions were reviewed by comparison to the equivalent NRC requirements that were transmitted from this office on September 2, 2005. We discussed our review of the license conditions with Mr. Robert Dansereau on November 7, 2005.

We have determined that the proposed New York State Health Department license conditions, if issued without significant change, would meet the compatibility category 'B' designation in NRC Order EA-05-090.

We appreciate receiving the final license conditions issued to effected New York State Health Department licensees.

The SRS Data Sheet summarizes our knowledge of the status of other New York State Health Department regulations and legal binding requirements, as indicated. Please let us know if you note any inaccuracies, or have any comments on the information contained in the SRS Data Sheet. This letter, including the SRS Data Sheet, will be posted on the STP website: <http://www.hrsd.ornl.gov/nrc/rulemaking.htm>.

If you have any questions regarding the review, the compatibility categories, or any of the NRC requirements used in the review, please contact Mr. Andrew Mauer of my staff at 301-415-3962 or e-mail: [anm@nrc.gov](mailto:anm@nrc.gov).
