

September 11, 2008

Susan Jablonski, Director  
Radioactive Materials Division  
Texas Commission on Environmental Quality  
P.O. Box 13087 MS 122  
Austin, TX 78711-3087

Dear Ms. Jablonski:

We have reviewed the proposed changes to the Texas Commission on Environmental Quality (TCEQ) regulations Subchapter A: General Provisions, §§331.2, 331.7, 331.13, Subchapter F: Standards For Class III Well Production Area Development §§331.103 - 331.109, Subchapter M: Requirements For Existing Wells Used For Development Of Class III UIC Well Applications §§331.220 - 331.225, Subchapter I: Financial Responsibility §331.143, Subchapter C: General Standards And Methods §331.45, §331.46, and the TCEQ license conditions that were submitted to address the Order Imposing Fingerprinting and Criminal History Records Check Requirements for Unescorted Access to Certain Radioactive Material received by our office on July 23, 2008. These regulations and license conditions were reviewed by comparison to the equivalent Nuclear Regulatory Commission (NRC) rules in 10 CFR Parts 40.36 and Appendix A to Part 40, the equivalent NRC Order EA-07-305 and the requirements of the two amendments identified in the enclosed State Regulation Status (SRS) Data Sheet. We discussed our review of the regulations with you on September 11, 2008.

As a result of our review, we have one comment that has been identified in the enclosure. Please note that we have limited our review to regulations required for compatibility and/or health and safety. Under our current procedure, a finding that the TCEQ regulations meet the compatibility and health and safety categories of the equivalent NRC regulation may only be made based on a review of the final TCEQ regulations. However, we have determined that if your proposed regulations were adopted, incorporating our comments and without other significant change, they would meet the compatibility and health and safety categories established in the Office of Federal and State Materials and Environmental Management Programs (FSME) Procedure [SA-200](#).

We request that when the proposed regulations are adopted and published as final regulations, a copy of the "as published" regulations be provided to us for review. As requested in FSME Procedure [SA-201](#), "Review of State Regulatory Requirements," please highlight the final changes, and provide a copy to Division of Materials Safety and State Agreements, FSME.

S. Jablonski

**COMPATIBILITY COMMENT ON TEXAS PROPOSED REGULATIONS**

STATE SECTIONS	NRC SECTION	RATS ID	CATEGORY	SUBJECT and COMMENTS
30 TAC 37.9035, 336.1105	Part 40 Appendix A	N/A	A	<p><b>Appendix A: Definitions</b></p> <p>Texas CEQ's definition of "closure" in 30 TAC 37.9035 is inconsistent with its definition of "closure" in 30 TAC 335.1105. The latter definition is compatible with NRC's definition of "closure." The former definition is more closely associated with closure activities.</p> <p>Texas CEQ needs to have a consistent definition of "closure" throughout its regulations or more explicitly define the definition of "closure" in 30 TAC 37.9035 to specify how it relates to the financial assurance requirements to avoid duplication and to meet the Compatibility Category A assigned to the definitions of 10 CFR 40 Appendix A.</p>

## STATE REGULATION STATUS

State: Texas Commission on Environmental Quality
