Division of Radiation Protection  
Washington Department of Health

Dear Mr. Frazee:

We have reviewed the proposed changes to the Washington Administrative Code (WAC), Chapter 246-220-010 and 221-010, "*Radiation Protection - Revision of the Skin Dose Limit*", received by our office on September 29, 2004. Our review and comments are in response to the State's request for Nuclear Regulatory Commission (NRC) evaluation of the changes to Washington's radiation control rules that incorporated the amendments identified on the States Regulation Status Data Sheet (SRS). These regulations were reviewed by comparison to the equivalent NRC rules in 10 CFR Parts 20 and the requirements of the amendment identified in the enclosed SRS. We discussed our review of the regulations with you on October 1, 2004.

As a result of our review, we have no comments and one editorial suggestion. Please note that we have limited our review to regulations required for compatibility and/or health and safety. Under our current procedure, a finding that a State regulation meets the compatibility and health and safety categories of the equivalent NRC regulation may only be made based on a review of the final State regulation. However, we have determined that if these regulations are adopted without significant change, they would meet the compatibility and health and safety categories established in the Office of State and Tribal Programs (STP) Procedure SA-200. We request that when the proposed regulations are adopted and published as final regulations, a copy of the "as published" regulations be provided to the NRC for review.

The SRS Data Sheet summarizes our knowledge of the status of other Washington regulations, as indicated. Please let us know if you note any inaccuracies, or have any comments on the information contained in the SRS Data Sheet. This letter, including the SRS Data Sheet, is posted on the STP website: <http://www.hrsd.ornl.gov/nrc/rulemaking.htm>.

If you have any questions regarding the comments, the compatibility and health and safety categories, or any of the NRC regulations used in the review, please contact me, or Lloyd Bolling of my staff at (301) 415-2327 or LAB@NRC.GOV.

Sincerely,
