

MIL-STD 810 TESTING

- Altitude
- Extreme (Low & High) Temperature
- Temperature Shock
- Solar Radiation
- Humidity
- Temperature/Altitude/Humidity
- Salt Fog
- Freezing Rain & Ice
- Blowing Rain & Dripping Rain
- Immersion/Leak
- Blowing Sand & Dust
- Settling Dust

FIELD SERVICES

- Life Cycle Environmental Profile (LCEP) Development
- Field Conditioning & Instrumentation
- World-Wide Historic Climatic Data
- DoD Storage Environment Database (High, Low, & Mean Temperature; Solar; Barometric Pressure; & Humidity)
- Test Specification Development

NDT/NDE & METROLOGY

- Full Metrology (Weight, CG, & Moments)
- X-ray (Film & Direct Digital)
- Dynamic Spin Balance
- CMM (2m X 4m X 1.5m)

MUNITIONS AND ORDNANCE TESTING

- Ordnance Modification
- Prototype Missile Assembly
- Missile Telemetry Kit Installation
- Missile Modifications
- Component Removal & Replacement
- Explosive Prototype Development
- Flash X-Ray and Detonation Velocity
- Missile Systems Exploitation
- Warhead Jet Characteristics
