Manuals, parts lists, and warranty information shall be packed in sealed water proof packaging that is reusable, i.e. zip lock bag. Packing Lists shall be sealed in water-resistant envelopes and secured to the exterior of the load or container in the most protected location.

Overall, packaging shall successfully pass test levels of ASTM D 4169, Distribution Cycle 18, Assurance Level (I for level A pack, or II for level B pack), Acceptance Criterion 3. Testing shall be witnessed by the Government Quality Assurance Representative. Packaged gross weight and size shall be included on the test report as well as a detailed description of the packaging. H.2 The Department of Defense (DOD) and the U.S. Army are enhancing customer identification security as part of an overall program to provide a stronger and more secure authentication process for accessing DOD information systems. As of 1 September 2011, the TACOM LCMC CIO/G-6 will meet this DOD mandate by requiring the use of a digital certificate for industry partners requiring access to the PM SKOT Warranty and Replacement website. The External Certification Authority (ECA) program supports the issuance of DOD-approved certificates to industry partners and other external entities and organizations that conduct business with the DOD. The ECA program is designed to provide a mechanism for these entities to securely communicate with the DOD and authenticate to DOD Information Systems.
