

# Vision Statement

To be Department of Defense's manufacturer of choice specializing in cannons, mortars, associated materiel using complex machining for U.S. Armed Forces, allies and commercial industry

To do this we must:

**1** Build and support a workforce with the skills, knowledge, and abilities to meet the needs of the warfighter

**2** Improve organizational processes to advance quality, efficiency, effectiveness, and continued improvement

**3** Manufacture products that support and sustain warfighters with combat effectiveness, expanded capability, and readiness today and tomorrow

**4** Foster a climate to promote a spirit of collaboration, teaming and customer service throughout the organization

We will maintain a command climate that recognizes the value of all team members by fostering open communication treating everybody with dignity and respect
