

CFLHD SUPPLEMENT 4.4.1-1

4.4.1 APPLICABLE DESIGN STANDARDS

Delete the last sentence of the third paragraph and replace with the following:

The *AASHTO Guidelines for Geometric Design of Very Low-Volume Local Roads (ADT \leq 400)*, 2001 may be used in lieu of the 2004 *Green Book* when designing local roads or collectors that fit the criteria; however, first consult with either:

- Highway Design Manager and Project Manager (internal projects) or
- CFLHD Project Manager (A/E projects).

To fit the criteria, a roadway would need to meet all of the following:

- Functional classification of local road or collector;
- ADT less than or equal to 400; and
- Roadway used primarily by drivers familiar with the road.
