

## **CFLHD SUPPLEMENT 8.1-1**

### **8.1 GENERAL**

Add the following:

Refer to the [CFLHD Guidelines for Safety-Related Design Procedures](#) for a description of how safety-related design information is gathered and addressed during the project development process in CFLHD. These guidelines provide the following information:

- Safety-related roles and responsibilities of the cross-functional team; and
- Recommendations on basic safety-related improvements to be included in various project types, including Pavement Preservation Projects.
