Chapter 1 External FAST Users (Customers)

I. Online User Interface

A. General

1. FSS mailing support has been added to the FAST system. FSS mail classes have been added to both the Mail Direction File, as well as FAST appointment functionality.
2. Recurring appointment creation management constraints will be modified from 14 days to 24 hours for appointments with Periodical content. A recurring appointment series may now be created one day in advance of the initial appointment instance for appointments with Periodical content.
3. The following FAST reports will be updated to include a search by area option (ie. These reports can now be generated at the Area level).
 - Appointment Rating Analysis Report
 - Closeout Data Report
4. One-Time appointments can now be scheduled up to 21 days in the future. Recurring appointment instances will now be generated 21 days in the future, with the effective start date defaulting to 22 days.
5. The Resources Page now has a link to the National CETs.
6. The Label List Files link on the Label List Download page now displays the Label List information within FAST instead of Postal Explorer.
7. The BSA will now have the ability to update the Scheduler Name, Contact Name, Contact Phone Number and Contact Email Address associated to their account within FAST by updating it within their Scheduler Profile.

B. Customer / Supplier Agreements

1. The CSA Approval / Reject window has been extended from 3 days to 5 business days.
2. The CSA Approval Summary Report has been updated to also include the approver's first and last name, as well as any approver comments entered.

II. FAST Web Services Architecture
