

Information Summary for the Public

Host Country:	India
Project Name:	CEMA Electric Lighting Products India Private Limited (the “Company”)
U.S. Sponsors:	Saratoga Partners IV, L.P. and Sabu Krishnan
Foreign Sponsors:	N/A
Project Description:	The acquisition, expansion and operation of a lighting products manufacturing facility in Limbasi, Gujarat, India (the “Project”).
Proposed OPIC Loan:	\$10,000,000
Total Project Cost:	\$16,300,000
Developmental Effects:	This project will have some development impact on the host country, India. The project should benefit the Indian economy by introducing new technologically-advanced industrial and consumer lighting products to the Indian market, and lower prices through competition. Further, the project will assist in meeting strong demand for energy efficient lighting products in India. The firm also plans to restart its currently non-operational glass manufacturing facility, which will allow it to produce General Lighting Service bulbs and fluorescent lamp tubes. CEMA will introduce a sophisticated IT platform to track sales and demand for its lighting products.
Environment:	Credit committee approval and commitment must be made subject to receipt of environmental clearance.
