

Information Summary for the Public

Host Country:	Peru
Name of Insured Investor:	GTV GloboKasNet LLC
Foreign Enterprise:	GloboKas Peru, S.A.C.
Project Description	Low cost electronic banking and other financial transactions and telecom services for the lower-and middle-income segments of the population in rural and semi-urban Peru.
Total Project Cost:	\$5,000,000
Proposed OPIC Insurance Amount:	\$1,250,000
Developmental Effects:	This project will have a positive developmental impact on the host country, Peru, through its technology transfer, human capacity building, telecommunications infrastructure, and fiscal impacts. The project will improve the electronic financial services infrastructure in the host country and introduce new technology products to consumers. It will benefit the large population in rural Peru, serving areas where there are neither bank branches nor access to traditional financial services. Its products and services will allow Peruvian banks and governments to serve large portions of the local population. The project is expected to employ over 100 new local employees who will receive formal business training.
Environment:	Projects that involve financial services are screened as Category C under OPIC's guidelines. Although the project will finance the purchase of communications equipment, the project does not require any physical construction. The environmental, health and safety concerns are minimal and no further analysis is required.
Workers Rights	OPIC's statutorily required standard worker rights language will be supplemented with provisions concerning the right of association, organization and collective bargaining, minimum age requirements, and hazardous working situations. Standard and supplemental

	contract language will be applied to all workers of the Project.
Human Rights	In consultation with the Department of State, the project received a Human Rights Clearance on December 1, 2008.
