

5 March 2012

AFRC Psychological Health Advocacy Program / North Region
5439 McCormick Avenue
Bldg 4014 Room 121
Wright Patterson AFB GA 45433

Dear Sir/Madam,

The AFRC Psychological Health Advocacy Program (PHAP) provides free, mental health resources to all AFRC members and their families, regardless of deployment history or status. PHAP resources include, but are not limited to, federal, state & local community services, online services and services from both active duty and reserve resources.

To spread the word to our AFRC airmen and their families, I am seeking assistance from all Public Affairs (PA) offices within the North region. Specifically, I would like to have a PHAP article published in each wing's base magazine and have a PHAP "pushdown button" placed on each wing's respective website which will link to the PHAP brochure. The brochure has PHAP contact information.

- In February 2012, the 445th Airlift Wing (AW) PA published an article regarding the PHAP in the *Buckeye Flier*: <http://www.445aw.afrc.af.mil/shared/media/document/AFD-120201-024.pdf>
- The 349 AW placed a PHAP "pushdown" on their public website: <http://www.349amw.afrc.af.mil/>
- The PHAP "pushdown" is located at: <http://www.afrc.af.mil/library/index.asp>

My points of contact for this request are Clarissa A. Webb and Sheila L. Kruse and they can be reached at either, DSN 787-4655 or commercial (937) 257-4655. Their email addresses are clarissa.webb.ctr@wpafb.af.mil and sheila.kruse.1.ctr@us.af.mil.

Very Respectfully,

JENNIFER L. WEDEL, RN
Case Facilitator
