ALL AGREEMENT STATES

NATIONAL SOURCE TRACKING SYSTEM POSTERS AND MAGNETS (FSME-12-059)

**Purpose:** To provide the Agreement States with posters and magnets related to the National Source Tracking System (NSTS)

**Background:** NRC has developed posters and magnets related to the NSTS to actively reach out to licensees to encourage online usage of NSTS.

**Discussion:** Under separate cover to the NSTS primary contact in each Agreement State, we have prepared outreach materials related to the NSTS for you to provide to new licensees subject to reporting to NSTS or those licensees who may be unfamiliar with NSTS. Under separate cover, we will also send these outreach materials to every licensee in NSTS. The posters, which come in both English and Spanish, were prepared to highlight the benefits of online reporting and to let licensees know where to sign up to get online access. The NSTS magnets were developed to advertise the new fax number for the Help Desk and to remind licensees of the phone number and email address for the Help Desk.
