*Framework 22 TAC effective on August 1, 2011

NOTE: As of 2/29/2012, 340 limited access trips into the Delmarva Access Area have been completed, not including compensation trips. Assuming 18,000 lb per trip, this would amount to 6,120,000 lb, or 104% of the TAC under Framework 22. The cumulative percent of observer set-aside quota on this monitoring report only reflects observed trips that have landed and does not account for any ongoing observed trips.
